Fund Size Projections & Contribution Base
For the Fourth Quarter 1998**

I. Introduction

The Universal Service Administrative Company (USAC) submits the Federal Universal Service Program fund size and administrative cost projections for the fourth quarter of calendar year 1998 and revisions to the contribution base amounts for the last six months of 1998, in accordance with section 54.709 of the Federal Communications Commission's (FCC or Commission) rules.¹ USAC is a not-for-profit corporation created under Subpart H of the Commission's Part 54 rules for interim administration of the federal High Cost and Low Income Universal Service programs and for performance of billing, collection and distribution of funding for the Schools and Libraries and Rural Health Care Universal Service programs.²

Upon approval of the quarterly funding requirements for the High Cost and Low Income programs, the projected administrative expenses and the establishment of contribution factors for the programs by the Commission, USAC will bill contributors on a monthly basis for their individual requirements, collect the funds,³ and distribute funds to eligible recipients⁴ based on

II. High Cost Programs

Subpart F of Commission's Part 36 rules and Subpart D of the Commission's Part 54 rules describe the universal service programs that are available for eligible telecommunications carriers serving high cost areas beginning January 1, 1998.⁶ These programs include the loop cost expense adjustment (USF), local switching support (DEM Weighting) and long term support (LTS). Together, the projected requirements for these three programs and the USAC administrative expenses, discussed *infra*, constitute the funding requirement for the High Cost programs.

USF Loop Cost Expense Adjustment

The National Exchange Carrier Association, Inc. (NECA), in accordance with Section 36.613 of the Commission's rules, submitted the results of its annual collection of loop cost data to the Commission and to the universal service program administrator.⁷

Subsequent to the NECA data submission, and the USAC October 31, 1997 filing of First Quarter 1998 Universal Service Fund Requirements,⁸ the Commission rejected the formula on

which the Average Schedule companies' USF support was calculated⁹ and in its Fourth Order on Reconsideration modified the limitation on Corporate Operations expenses that are reflected in the USF loop cost.¹⁰

NECA provided USAC with revised loop cost and expense adjustment data, based on the calendar year 1996 data submitted to NECA by the incumbent local exchange carriers on July 31, 1997, as adjusted to reflect the aforementioned changes. USAC included this data in its May 1, 1998 submission of support payment projections and funding requirements for the third quarter of 1998.¹¹ Subsequent to USAC's May 1, 1998 submission, the Commission approved a new USF formula for average schedule companies and established July 1, 1998 as the effective date for the new formula.¹² The expense adjustment payments for 1998 continue to exceed the cap on USF¹³

established in section 36.601(c).¹⁴ The USF expense adjustment cap methodology limits payments for calendar year 1998 to, in aggregate, not exceed the level of payments for 1997 by more than the rate of growth in USF loops from 1995 to 1996. As a result, USF expense adjustment payments for calendar year 1998 are projected to be \$826.6 million.¹⁵

Section 36.612 of the Commission's rules provides carriers with the option of submitting quarterly updates to the data submitted for the annual USF submission.¹⁶ NECA has informed USAC that on September 30, 1997, 92 local exchange carriers (LECs); on December 30, 1997, 85 LECs; and on March 30, 1998, 91 LECs submitted quarterly updates containing loop cost information based on appropriate months of the previous and current calendar year data. These quarterly updates were accounted for in the respective previous quarterly fund size projections. The next update to be submitted by local exchange carriers is the annual update of 1997 data due to NECA on July 31, 1998, which will be submitted to both the Commission and USAC on October 31, 1998. Accordingly, updated information for the twelve months of 1997 calendar year data is not included in this filing. As a result of the prior quarterly updates submitted and the fact that total expense adjustment funding requirements for 1998 exceed the cap, payments to each high cost exchange carrier have been adjusted to accommodate the quarterly updates, limitations resulting from Commission Waiver Orders and to insure that, in total, the funding does

not exceed the cap.¹⁷

For the fourth quarter of 1998, the projected USF expense adjustment requirement is \$209.0 million. Appendix 1 contains projected monthly and total quarter projected payment levels by incumbent local exchange carrier study area for the fourth quarter of 1998, based on NECA's October 1, 1997 USF Data Submission adjusted to reflect changes in Average Schedule company formula, the modification to the Corporate Operations Expense limitation and the impact of quarterly updates submitted to NECA on September 30 and December 30, 1997 and March 30, 1998.

Local Switching Support

Beginning January 1, 1998, telephone company study areas having 50,000 or fewer access lines were eligible to receive support for local switching costs¹⁸ in lieu of Dial Equipment Minute (DEM) Weighting formerly included in interstate traffic sensitive switched access rates.

Local switching support is the product of a carrier's annual unseparated local switching revenue requirement multiplied by its local switching support factor. The local switching support factor is defined as the difference between the 1996 weighted interstate DEM factor and the 1996

¹⁷ Although the rules governing quarterly updates are silent on the transfer of quarterly update results from NECA to the administrator, it is assumed the Commission intended for NECA to provide results of the quarterly update process to USAC for inclusion in the monthly support distribution process.

¹⁸ In addition to the eligibility criteria set forth in 47 C.F.R. § 54.201, exchange carrier study areas must also serve fewer than 50,000 lines to receive local switching support. *See* 47 C.F.R. § 54.301.

unweighted DEM factor.

In the 4th Reconsideration Order the Commission clarified the definition of Unseparated Local Switching Revenue Requirement, and provided the methodology to be used to compute it.¹⁹ In that order, the Commission adopted the methodology NECA used to estimate the funding requirement for its Traffic Sensitive pool member companies.²⁰ USAC's October 31, 1997, January 30, 1998 and May 1, 1998 filings relied on the methodologies that NECA developed for removing the DEM support from its traffic sensitive pool participants' rates. NECA utilized 1998 cost projections underlying its June 16, 1997 access tariff filing as the basis for developing its pool members' local switching support requirements for the 1997-1998 test period. In the instant filing, USAC continues to rely on data provided by NECA for its traffic sensitive pool participants' local switching support calculation. For the third quarter filing, NECA provided revised local switching support amounts for its pool participants that reflect the 1998 cost projections that were the basis of its June 16, 1998 access tariff filing for the 1998-1999 test period, thereby providing a more current view of the local switching support requirement.²¹ The instant submission continues to rely on those projections. There are 1,084 study areas in the NECA Traffic Sensitive pool that are eligible to receive local switching support (*i.e.*, have fewer than 50,000 lines in their study areas). NECA calculated the unseparated local switching revenue requirement for its cost and average schedule traffic sensitive pool participants separately. In each case, the unseparated local

²¹ Section 54.301(e) of the Commission's rules requires NECA to make a true-up adjustment for a carrier's local switching support payment when the carrier submits historical data. 47 C.F.R. §54.301(e)

switching revenue requirement was developed using the algorithm approach that assigns overheads to the switching category. Exhibits 1 and 2 display the algorithms that were used to develop the local switching revenue requirements for NECA's average schedule and cost company pool participants respectively.

USAC collects local switching support information directly from the exchange carrier study areas that have fewer than 50,000 lines and do not participate in the NECA traffic sensitive pool.²²

The instant filing includes local switching support requirements for the companies that exited the NECA Traffic Sensitive pool prior to July 1, 1998 based on the results of the collection of individual company data.²³ NECA's projection of local switching support amounts being removed from its traffic sensitive pool participants' access rates are \$196.8 million for cost study areas and \$99.1 million for average schedule study areas. Local switching support amounts of the non-NECA traffic sensitive pool study areas' are \$93.5 million for cost study areas and \$9.2 million for average schedule study areas.²⁴ Based on these revised estimates, total 1998 local switching support is estimated to be \$398.7 million. USAC projects that one-quarter of this

²² 4th Reconsideration Order at ¶ 49. A copy of the data collection form and instructions is included as Exhibit 3.

²³ NECA informed USAC that eight exchange carrier study areas have left its Traffic Sensitive pool effective July 1, 1998. Of the exiting study areas, six qualify for local switching support. NECA provided local switching support information for each of these companies based on cost projections utilized in its 1998 access tariff filing. USAC is currently working with these companies to obtain updated cost information for use in updating their local switching support.

²⁴ Of these amounts \$1.6 million for cost companies and \$1.1 million for average schedule companies are attributable to companies that have elected to exit NECA's traffic sensitive tariff as of July 1, 1998.

amount, or \$99.6 million will be required for 4Q98. Individual study area local switching support projections per month are displayed in Appendix 3.

Because the local switching support is based on projections of 1998 switching costs, actual individual study area requirements will not be known until the 1998 cost studies are completed for those carriers, sometime in late 1999. The Commission's rules specify that true-ups to the local switching support will be made to reflect actual 1998 switching costs.²⁵

Long Term Support

Beginning January 1, 1998, telephone company study areas that participate in NECA's Common Line pool are eligible to receive long term support from the federal high cost support programs.²⁶

The amount of long term support that an incumbent local exchange carrier that participates in NECA's Common Line pool is eligible to receive is equal to the difference between the 1997 projected carrier common line revenue requirement of that carrier and the 1997 projected revenue to be recovered by the application of the NECA Carrier Common Line charge to that carrier's common line minutes of use. For 1998 long term support, the 1997 level of support is multiplied by the rate of growth in the national average cost per loop filed by NECA on October 1, 1997.²⁷

²⁵ 47 C.F.R. § 54.301(e)(2)(iv) (“[t]he Administrator shall adjust each carrier’s local switching support payment by the difference calculated in paragraph (e)(2)(iii) of this section no later than 15 months after the end of the calendar year for which historical data are submitted.”)

²⁶ 47 C.F.R. § 54.303.

²⁷ See USF Data Submission at 6. The national average cost per loop for 1996 decreased by .44 percent from the 1995 level.

The quarterly long term support requirements included in the October 30, 1997 and January 30, 1998 requirements were based on 1997 common line cost projections utilized by NECA in its June 16, 1997 access tariff filing²⁸ as the basis for developing its pool members' initial long term support requirements. For the May 1, 1998 filing as well as the instant filing, NECA provided USAC with revised long term support levels based on the most current projection of 1997 common line cost data it had utilized in support of its June 16, 1998 Common Line rate filing.²⁹ NECA provided USAC with individual exchange carrier study area projected long term support requirements for its common line pool participants for 1998. Using year-end 1996 USF loop counts, USAC developed individual study area per-line per-month long term support amounts. Monthly and fourth quarter study area specific Long Term Support levels are displayed in Appendix 2. Total 1998 Long Term Support is estimated to be \$472.8 million. USAC projects that one-quarter of this amount, or \$118.2 million, will be required for fourth quarter 1998.

Appendix 4 contains individual company loop data as well as per-month high cost support for each program that each incumbent local exchange carrier will be eligible to receive and the combined total support per-month for all of the High Cost programs.³⁰

²⁸ National Exchange Carrier Association, Inc., 1998 Annual Access Filing, Transmittal 800, filed June 16, 1998.

²⁹ The 1998 long term support amounts are predicated on projections of 1997 requirements, with actual costs and revenues not being known until the final 1997 cost studies are complete, late in 1998.

³⁰ Appendices 1 through 4 are also being provided electronically in Excel 4.0 format.

III. Low Income Programs

As a requirement for eligibility for receipt of support, carriers must offer Lifeline programs to qualified low-income consumers. Carriers that provide such programs in accordance with section 54 Subpart E of the Commission's rules and have met the other conditions of eligible carrier status (*i.e.*, have been designated as an eligible telecommunications service provider and have provided a copy of the state public utilities commission document making that designation) are entitled to receive funding from the federal Universal Service programs for waiver of charges and reduced rates provided to qualified low-income subscribers.³¹

Specifically, the federal Lifeline program provides funding from the interstate jurisdiction of up to \$7.00 per low-income subscriber per month consisting of a baseline amount of \$3.50, an additional \$1.75 per subscriber per month if the state commission authorizes a reduction in local rates equal to that amount, and up to an additional \$1.75 from the federal program if the state provides support for the low-income subscriber as well (the portion of the final \$1.75 that can be recovered is equal to one-half of a state funded amount up to \$3.50, if the state approves a reduction in local rates that is one and one-half times the level of matching state support).³²

The federal Link-up program compensates eligible telecommunications service providers for revenue foregone in offering a Link-up program that provides for service commencement

³¹ 47 C.F.R. §§ 54.401-54.417. Exhibit 4 lists the carriers (by state) that have received Eligible Telecommunications Carrier status.

³² For example, if a carrier operating in a state that has a matching program that provides \$3.50 in support through a matching program, reduces its intrastate rates by \$7.00 for low-income customers, the customer would experience a total monthly rate reduction of \$10.50 (\$3.50 in interstate charges and \$7.00 in intrastate charges) of which \$7.00 would be funded from the federal jurisdiction and \$3.50 from the state matching program.

charges for qualified low-income individuals that are discounted by one-half (up to \$30.00 in funding) or for interest foregone from a deferred schedule of payment of the charges assessed for commencing service (up to \$200.00) for which the low income consumer pays no interest.

Additionally, the federal program compensates eligible telecommunications service providers for providing voluntary toll-limitation based on the carrier's incremental cost of providing toll-limitation services. The Commission defined these costs as the costs that carriers otherwise would not incur if they did not provide toll-limitation service to a given customer.³³

In its 4th Reconsideration Order, the Commission established that eligible carriers, required to assess Presubscribed Interexchange Carrier Charges (PICCs) in their access charges, may also receive compensation for the PICCs associated with low-income subscribers that voluntarily opted for toll blocking service.³⁴

The Commission's Second Order on Reconsideration in CC Docket 96-45 requires USAC's High Cost and Low Income Committee to determine its quarterly demand projections for the Low Income programs based on historic demand.³⁵ On December 16, 1997, the Commission in establishing the final contribution factors for the first quarter of 1998 established a projected annual funding requirement for the Low-Income program of \$500 million, and limited

first quarter funding to \$125 million.³⁶ As USAC had yet to receive any claims for low-income reimbursement, it relied on the Commission's forecast for the second quarter funding requirement as well.³⁷ USAC requested an additional \$125 million in funding for the low-income programs for the second quarter of 1998 based on the Commission's estimated 1998 funding requirements.

For the third quarter 1998, USAC projected full participation of all carriers to result in an annual support requirement of approximately \$492 million to fund the lifeline and link-up components of the program. USAC also anticipated the toll limitation and PICC components to add an additional requirement of approximately \$12 million, resulting in an annual requirement of \$504 million. USAC requested \$126 million in funding for the low income programs for the third quarter of 1998.

Low income support is reimbursed two months in arrears of the time discounts are provided to low income subscribers. Thus, support distributions made in March 1998 were for subscriber discounts provided in January 1998. Detailed below are the eligible telecommunications carriers' submitted claims for reimbursement for the low income programs for the months of January 1998 through May 1998. Also provided are these carriers' lines as a percent of the industry total lines:

<u>Month</u>	<u>Submitted Claims (in Millions)</u>	<u>Percent of Total Industry Lines</u>	<u>Total Industry Estimate (in Millions)</u>
January 1998	\$34.3	93.7%	\$36.6
February 1998	\$36.8	94.9%	\$38.8
March 1998	\$36.2	92.5%	\$39.0
April 1998	\$36.9	92.7%	\$39.8
May 1998	\$36.4	91.3%	\$39.9

All eligible telecommunications carriers are required to provide the low income programs to qualified low income customers. The process for reimbursement of low income credits provides the carriers the option of submitting the claims on a monthly, quarterly, or semi-annual basis. USAC anticipates that the claims for January through May 1998 will continue to increase.³⁸

The five month trend of the industry estimated data indicates a growth in funding requirement. As such, USAC estimates that approximately \$125.0 million will be required to fund the fourth quarter. Appendix 5 provides detail on the low-income programs available in each of the states. Appendix 6 provides detail on company specific claims for reimbursement from the low income programs for the months of January through May 1998, and which were reimbursed during the May through July 1998 time frame. The numbers in Appendix 6 may not be identical to the above table showing submitted claims for reimbursement due to the fact that the referenced table shows an accumulated dollar amount submitted to date for each month. Appendix 6 details

actual dollars paid to each company during an accounting monthly cycle.

IV. Administrative Expenses

Section 69.620 (b) of the Commission's rules require the administrator to submit to the Commission its projected quarterly budget at least 60 days prior to the start of the quarter.³⁹ In its 2d Reconsideration Order (adopted July 17, 1997), the Commission determined that USAC should not allocate all of its administrative costs to the high cost and low-income programs' quarterly cost projections.⁴⁰ The Commission directed USAC to include any costs that can be directly attributed to the schools and libraries or rural health care programs in the projected administrative expenses of the relevant programs.⁴¹ USAC's joint and common costs associated with billing and collection of contributions or disbursement of funds are also to be identified. One-fourth of USAC's joint and common costs are to be included in the projected administrative expenses of the high cost, low-income, schools and libraries, and rural health care programs, respectively.⁴²

In its August 15, 1997 Order⁴³ the Commission directed NECA to begin performing certain

functions relative to the new Universal Service programs and established that NECA would receive reimbursement for administrative expenses associated with its performance of the incorporation and other start-up functions that had been assigned to it. The Commission concluded that NECA would be entitled to recover from the new universal service support mechanisms in 1998 all reasonable administrative costs, including interest on funds advanced for start-up activities, that NECA incurred in 1997 in performing the duties assigned to it by the July 17th and August 15th Orders.⁴⁴

USAC projects that it will incur expenses of \$115 thousand to administer the high cost programs during the fourth quarter of 1998. Additionally, USAC anticipates costs of \$91 thousand to administer the low-income programs during the fourth quarter. The joint and common costs for the fourth quarter of 1998 total \$1.02 million, of which \$256 thousand is to be assigned to each of the programs (*i.e.*, high cost, low-income, schools and libraries, and rural health care).

In the May 8, 1997 Universal Service Order, the Commission directed NECA to continue performing certain functions relative to the Universal Service Fund (USF), *i.e.*, the collection and processing of annual USF data as well as the optional quarterly updates to that data.⁴⁵ The Part 69 rules governing recovery of NECA expenses no longer permit recovery of expenses related to

⁴⁴ The Commission stated that USAC and the Corporations may contract with NECA for particular services when doing so would minimize administrative expenses or facilitate the prompt implementation of the support mechanisms. 2d Reconsideration Order at ¶ 74. In this August 15th Order, the Commission clarified that NECA also may receive compensation for services provided on behalf of USAC and the Corporations even before the establishment of those entities. Universal Service in that there are no associated revenues.⁴⁶ NECA's projected fourth quarter expenses to perform these universal service programs-related functions are \$1.5 million and have been included in the fourth quarter 1998 funding requirement. NECA projects these expenses to ensure the USF High Cost data collection and processing system will be Year 2000 compliant by converting from mainframe processing to client server technology.

For the fourth quarter of 1998, USAC projects interest income of approximately \$.7 million for the high cost program and \$1.0 million for the low-income program. The projected interest income is being included as an offset to expenses for each of the programs.

Appendix 7 provides the detail of the expense projections for the high cost and low-income programs. Fourth quarter 1998 projected expenses for the high cost programs are \$1.9 million, offset by projected interest income of \$.7 million, providing a net addition to the funding requirement of \$1.2 million. Fourth quarter 1998 projected expenses for the low-income programs are \$.3 million offset by interest income of \$1.0 million, providing a net reduction to the low-income funding requirement of \$.7 million.

V. Funding Requirements

High Cost Programs

In addition to the projected requirements for the high cost programs for the fourth quarter of 1998, discussed *supra*, and the aforementioned projected expenses assigned to the high cost programs are carry-over requirements from the programs administered by NECA through the end of 1997 and adjustments to projected 1Q98 support payments. Additional funding of \$1.1 million

⁴⁶ See 47 C.F.R. § 69.603.

has been included in the 4Q98 requirement to true-up changes to existing requirements that have occurred since USAC last reported on changes to the NECA-administered program in its May 1, 1998 filing. This increase in funding is required to account for differences between prior projections and actual assistance provided. Sections 36.631(e), 36.741(b) and 69.104(l) of the Commission's rules require NECA to make changes in the size of the projected revenue requirement to reflect adjustments based on actual dollar amounts compared to the forecast included in prior tariff rates.⁴⁷ Increases in the size of the funding requirement for the previous period are added to the projected USF requirements; decreases from the prior period are subtracted from the projected revenue requirements. Since NECA no longer has the capability to reflect these changes in future tariffs, the increase is being added to the fourth quarter projection for the high cost programs.

Second quarter 1998 results contribute to an over-funded condition, for which the instant filing proposes to adjust the fourth quarter 1998 requirements. The authorized funding requirement for the second quarter for the high cost program was \$430.9 million. As a result of changes to the funding base of interstate and international revenues, application of the authorized contribution factor of .0314 produced billing for the high cost program totaling \$433.1 million, or a surplus in excess of the authorized funding level of \$2.2 million. The surplus billed amount is offset by billing to four companies that are in bankruptcy proceedings totaling \$2.5 million resulting in a net billing deficit of \$.3 million. In addition to the billing deficit, distributions for the

Sections 36.741(b) and 69.104(l) of the Commission's rules define the resizing procedures for lifeline connection assistance and subscriber line charge waiver, respectively. *See* 47 C.F.R. §§ 36.631(e), 36.741(b) and 69.104(l).

high cost program were \$5.7 million less than originally anticipated as a result of changes to the Local Switching Support requirement for non-NECA Traffic Sensitive pool participants and adjustments to second quarter disbursements to USF. This reduction in the funding requirement when added to the net billing deficit results in a proposed reduction to the fourth quarter funding requirement of \$4.3 million.

The total projected funding requirement for the high cost programs for the fourth quarter 1998 is \$423.7 million.⁴⁸ Exhibit 5 details the individual components of the funding requirement for the fourth quarter of 1998.

Low-Income Programs

There is also a carry-over effect from the NECA-administered low income programs; which results in an additional funding requirement of \$.3 million. Similar to the high cost program, the low-income program also experienced a surplus in 1Q98 USAC billings. The first quarter

Federal-State Joint Board on Universal Service, *Fifth Order on Reconsideration and Fourth Report and Order in CC Docket No. 96-45*, FCC 98-120 (rel. June 22, 1998), ¶ 3 (5th Reconsideration Order). The Commission did not modify the annual caps adopted in the May 8, 1997 Universal Service Order. *Id.* at n. 2. Rather the Commission directed USAC to collect only as much money as is required by demand, but in no event more than \$25 million per quarter for the third and fourth quarters of 1998 to support the rural health care universal service support mechanism, and no more than \$325 million per quarter for the third and fourth quarters of 1998 and the first and second quarters of 1999 to support the schools and libraries universal service support mechanism. *Id.* at ¶ 3. The modification to the maximum amounts that may be collected will result in additional service providers being eligible for the *de minimis* exemption in the second half of 1998. USAC projects that the fourth quarter collections will be reduced by \$251 thousand for the high cost support funds and \$72 thousand for the low income support funds. These amounts have not been included in the fourth quarter 1998 requirement.

authorized funding requirement for the low income programs was \$125.0 million. USAC billed telecommunications service providers \$125.7 million for these programs. Based on the revised interstate and international revenue base, \$.7 million more than the authorized level was billed. Adjusting the over-billing amount to account for the four bankrupt entities (\$.7 million) results in no over-funding. In anticipation of reimbursement requests being less than what was initially projected for January through March 1998, USAC proposes a reduction in funding of \$8.9 million. The net result of the proposed adjustments, (*i.e.*, additional 1997 requirement, excess billing, bankruptcies, and lower reimbursements in the first quarter) results in a proposed reduction for the fourth quarter funding requirement of \$8.6 million.

The total projected funding requirement for the low-income programs for the fourth quarter 1998 is \$115.8 million. Exhibit 5 details the individual components of the funding requirement for the quarter.

VI. Contribution Bases

USAC distributed over 4,000 forms (FCC Form 457) in mid-February 1998. Interstate telecommunications service providers were required to complete this form with revenue information for calendar year 1997 and return the forms to USAC by March 31, 1998. To date, USAC has received over 4,000 completed forms.⁴⁹

Funding bases for the third and fourth quarters are determined by subtracting the revenues reported for January through June 1997 (reported in September 1997) from the calendar year

⁴⁹ USAC received certifications of *de minimis* status from 1,923 carriers, which are included in the over 4,000 completed forms it received to date.

1997 revenues reported on March 31, 1998.⁵⁰

USAC has yet to receive Forms 457 from 96 telecommunications service providers that submitted forms in September 1997. For those carriers that failed to submit a calendar year Form 457, USAC has included the revenues reported on their prior submission in establishing the preliminary fourth quarter funding bases for the support programs.⁵¹

For the fourth quarter 1998 funding period the preliminary total end-user revenue base to be used in determining the contribution factor for the schools and libraries and rural health care programs is \$94.482 billion. The interstate and international end-user revenue base to be used in determining the contribution factor for the high cost and low-income programs is \$34.228 billion.⁵²

⁵⁰ 2d Order on Reconsideration, Appendix C (FCC Form 457 - Universal Service Worksheet Instructions, II.B.), 12 FCC Rcd at 18502.

⁵¹ January through June 1997 Revenues for carriers not yet filing a Form 457 total approximately \$435.3 million in total revenues or .46 percent of the total funding base projection for the fourth quarter. Carriers that have not provided their calendar year data have been contacted; however, as of the filing date have not provided the required submission.

⁵² USAC has identified a decline in the interstate and international revenues based on data supplied for the second half of calendar year 1997. Preliminary review of the data indicates that while the interstate and international revenues for the industry declined by approximately \$1.12 billion for the second half of 1997 compared to the first six months' revenues, the interstate and international revenues for the interexchange carriers declined by approximately \$1.42 billion, accounting for more than the total decline. For the Third Quarter 1998 filing, 459 carriers had not responded, while there were 96 non-responders for the instant filing. Receiving the actual data for these carriers has resulted in lower reported interstate revenues. Contacts have been initiated with carriers exhibiting the largest declines in reported interstate revenues to confirm the reported amounts.

At its July 20, 1998 meeting, the High-Cost Low-Income Committee passed a resolution authorizing the fourth quarter 1998 high cost and low income program funding requirements described herein. The full USAC Board of Directors, by resolution, authorized the inclusion of the fourth quarter 1998 administrative expenses and the revised funding base.

Ave. Burden Estimate per Respondent: 24 Hours

NOTICE: To implement Section 254 of the Communications Act of 1934, as amended, the Federal Communications Commission has adopted changes to the universal service support mechanism. Each incumbent local exchange carrier that is not a member of the NECA Traffic Sensitive tariff, that has been designated an eligible telecommunications carrier, and that serves a study area with 50,000 or fewer access lines shall, for each study area, provide the Administrator with the projected total unseparated dollar amount assigned to each account in 47 C.F.R. section 54.301(b). This data collected here will be used by the Universal Service Administrative Corporation (USAC) to calculate each carrier's local switching support, consistent with section 54.301 of the Commission's rules. Your response is mandatory.

We have estimated that each response to this collection of information will take, on average, 24 hours for each respondent. Our estimate includes the time to read this data request, review existing records, gather and maintain required data, and complete and review the response. If you have any comments on this estimate, or on how we can improve the collection and reduce the burden it causes you, please write the Federal Communications Commission, AMD-PERM, Washington, D.C. 20554, Paperwork Reduction Project (3060-0785). We will also accept your comments on the burden estimate via the Internet if you send them to jboley@fcc.gov. Please **DO NOT SEND** the data requested to this e-mail address.

You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0814.

This notice is required by the Privacy Act of 1974, P.L. 93-579, December 31, 1974, 5 U.S.C. § 552a(e)(3) and the Paperwork Reduction Act of 1995, P.L. 104-13, October 1, 1995, 44 U.S.C. § 3507.

INSTRUCTIONS FOR COMPLETING THE WORKSHEET

Purpose-

The data requested herein provides the basis for determining the Local Switching Support amount for 1998 in accordance with 47 C.F.R. §54.301(3)(b)-(d). This section of the rules states that the Local Switching Support for 1998 will equal the difference between the weighted and unweighted 1996 Dial Equipment Minutes (DEM) factor multiplied by the carriers unseparated local switching revenue requirement.

General Instructions-

Please enter the six digit NECA Study Area Code on Data Line (010), the Study Area Name on Data Line (020), Data Period on Data Line (023), Submission Period on Data Line (025), Contact

Name on Data Line (030) and Contact Telephone Number Data Line (040). Beginning with Data Line (060), enter the projected amounts for the 12-month period ending December 31, 1998, in the spaces provided.

A mechanized Local Switching Support Calculation System will not be available for direct, online use in entry of your company's data. The data collection form is being provided in paper format as well as on diskette in both Lotus 123 and Excel formats. The diskette versions will automatically calculate your Local Switching Support for you using the FCC approved methodology. Please return the completed form(s) by February 13, 1998 to:

**Manager- High Cost Programs
USAC

In addition to the submission of the data, completion of a Certification statement, included as the last page of the Data Form, is required. It must be signed by the officer or employee responsible for the overall preparation of the data submission. The certification should be included with your data submission.

Each line on the Data Collection Form includes a Data Line reference number; a description of the information being requested; a duplicate Data Line reference number; an Enter 1998 Amount space

Example:

<u>Data Line</u>	<u>Description</u>	<u>Data Line</u>	<u>Enter 1998 Amount</u>

DATA REQUIREMENTS

Data required for this submission must be projected unseparated regulated amounts, i.e., state and interstate, as of the end-of-period for calendar year 1998 and must be in accordance with FCC Rules. Revisions will be required when finalized actual data is available.

Data must be representative of the regulated telephone operations only, as authorized by the FCC, for the 12-month Data Collection Period for which it is being submitted (i.e., calendar year 1998 projection). Investment, expenses, taxes, benefits and rents, etc., associated with non-regulated operations and costs associated with plant leased to other entities must be excluded. The non-regulated portion of accounts used for both regulated and non-regulated activity, e.g., motor vehicles, plant maintenance, benefits and rents, etc., must be excluded.

Calendar year 1996 cost study must be used for developing weighted and unweighted DEM factors for Local Switching Support purposes.

RECONCILIATION REQUIREMENTS

The FCC and the Administrator will require additional information reconciling the projected data provided herein to corresponding financial data when it becomes available (i.e., finalized financial records, ARMIS reports, etc.) for all study areas receiving Local Switching Support. This information must be provided within 12 months of the end of the data period, but not later than December 31, 1999.

This reconciliation is intended to ensure that support amounts provided by the Universal Service programs are consistent with the actual support requirements of the carriers.
