**FEDERAL UNIVERSAL SERVICE SUPPORT MECHANISMS
FUND SIZE PROJECTIONS FOR
SECOND QUARTER 2011**

INTRODUCTION

The Universal Service Administrative Company (USAC) hereby submits the federal Universal Service Support Mechanisms fund size and administrative cost projections for the second quarter of calendar year 2011 (2Q2011), in accordance with Section 54.709 of the Federal Communications Commission's (FCC or Commission) rules.¹

USAC is the not-for-profit corporation responsible for administering the federal Universal Service Fund (USF) and the universal service support mechanisms: High Cost, Low Income, Rural Health Care, and Schools and Libraries.² USAC also performs the billing, collection, and disbursement functions for the universal service support mechanisms.

Upon approval of the quarterly funding requirements for the universal service support mechanisms and the projected administrative expenses, and the submission of the contribution base amount, the Commission will establish a quarterly contribution factor. USAC will bill contributors on a monthly basis for their individual obligations based on the approved contribution factor, collect amounts owed from contributors, and distribute funds to eligible recipients based on the schedules filed herein.³

¹ 47 C.F.R. § 54.709(a)(3).

² 47 C.F.R. § 54.701.

³ See 47 C.F.R. §§ 54.709(a)(4), 54.201, 54.203, 54.515, 54.517, 54.301-54.307, 54.407, 54.413, 54.515 and 54.611.

ADMINISTRATIVE EXPENSES AND INTEREST INCOME PROJECTION

ADMINISTRATIVE EXPENSES

Section 54.709(a)(3) of the Commission's rules requires USAC to submit its projected quarterly budget at least 60 days prior to the start of the quarter.⁴ USAC includes any costs that can be directly attributed to the High Cost, Low Income, Rural Health Care, and Schools and Libraries Support Mechanisms in the projected administrative expenses of each mechanism. USAC's remaining joint and common costs including costs associated with the billing, collection, and disbursement of funds are included in the projected administrative expenses of the respective support mechanisms based on USAC's methodology for allocating costs submitted to the Commission.⁵

USAC projects a consolidated budget of \$29.42 million for 2Q2011. Direct costs for all support mechanisms total \$19.12 million⁶ and are listed for each mechanism in the chart provided below. Joint and common costs (including billing, collection, and disbursement activities) are projected at \$10.30 million and are allocated to each support mechanism as described in the chart below based on the allocation methodology on file with the Commission.

⁴ 47 C.F.R. § 54.709(a)(3).

⁵ On January 1, 2006, USAC implemented a revised methodology for allocating joint and common costs that was filed with the Commission on October 3, 2005. *See* Letter from D. Scott Barash to Marlene H. Dortch regarding Revisions to the Method for Allocating Costs Among the Four Universal Service Support Mechanisms, CC Docket Nos. 97-21 and 96-45 (Oct. 3, 2005).

⁶ This amount includes \$70,000 budgeted each quarter for High Cost data collection performed by the National Exchange Carrier Association (NECA)—an independent entity not affiliated with USAC. *See* 47 C.F.R. §§ 36.611-13 and 69.603. Although USAC is required to pay for the data collection, it does not have the ability to directly oversee the effort and cannot verify, monitor, or otherwise evaluate the cost of performing the data collection function. Consistent with the fiduciary obligations of its members to safeguard USAC assets and the USF, USAC's Board of Directors has requested clarification from the Commission concerning this matter. *See* letter from D. Scott Barash, USAC, to Irene Flannery, FCC (Dec. 10, 1999), Comments of the Universal Service Administrative Company to the *Further Notice of Proposed Rulemaking* in CC Docket No. 96-45, FCC 01-8 (Feb. 26, 2001). *See also*, Comments of the Universal Service Administrative Company to the *Notice of Proposed Rulemaking and Further Notice of Proposed Rulemaking* in CC Docket No. 05-195, FCC 05-124 (June 14, 2005); and *Reply Comments of the Universal Service Administrative Company* (Dec. 19, 2005).

Appendix M01 provides USAC’s administrative expense budget for 2Q2011.

Appendix M02 provides the fund size projections for 2Q2011.

INTEREST INCOME PROJECTION

For 2Q2011, USAC projects interest income of approximately \$0.13 million for the High Cost Support Mechanism, \$0.15 million for the Low Income Support Mechanism, \$0.58 million for the Rural Health Care Support Mechanism, and \$3.97 million for the Schools and Libraries Support Mechanism. USAC projects total interest income of \$4.83 million. As in previous quarters, projected interest income is being included as an offset to administrative expenses for each of the support mechanisms and reduces the amount that USAC will be required to collect from carriers for those support mechanisms that are funded at caps established by the Commission.

FINANCIAL STATEMENTS

For the twelve months ended December 31, 2010, on a cash basis, USAC disbursed to beneficiaries \$8,182.26 million in universal service support as follows: \$4,412.28 million in High Cost support, \$1,375.39 million in Low Income support, \$2,284.74 million in Schools and Libraries support, and \$109.85 million in Rural Health Care support. On a cash basis, the total cash balance available as of December 31, 2010 to the universal service

support mechanisms was \$5,564.05 million. On an accrual basis, USAC had a fund balance of \$5,937.22 million at December 31, 2010.

Appendices M03 and M04 provide 2010 year-to-date statements of fund activity on a cash and accrual basis.

EFFORTS TO PREVENT AND REDUCE IMPROPER PAYMENTS

USAC has established a foundation of processes, systems, procedures, and outreach activities to prevent or reduce “improper” payments as defined by the Improper Payments Information Act of 2002 (P.L. 107-300). USAC is also evaluating additional measures that may help to identify or reduce improper payments. USAC has initiated efforts consistent with its February 28, 2008 letter to the Commission identifying additional steps that USAC proposed to take to prevent or reduce potential improper payments and the additional resources needed to implement such measures.⁷ Commission staff has directed USAC to report on a quarterly basis its progress in implementing proposed actions to prevent or reduce improper payments and anticipated administrative costs of such actions.⁸

The steps initiated by USAC include additional oversight and managerial controls, strengthened audit and investigative techniques, improved information technology tools, and more effective use of outreach resources. In 2Q2011, USAC will continue efforts identified and initiated during the previous years. These efforts include, but are not limited to:

1. *Assessing and strengthening USAC's internal controls.*

The internal controls team continues to perform the required internal control related documentation and testing to ensure the company's internal controls program and existing internal controls framework is in compliance with best practices consistent with the internal

controls process defined in OMB Circular A-123. The team completed testing of key internal controls for Schools and Libraries and Rural Health Care programs during 2Q2010 and for High Cost and Low Income during 3Q2010. No material weaknesses were identified during this testing. Corrective action plans have been developed and are currently being implemented to remediate all identified control deficiencies. The internal controls team is working closely with the process owners to monitor and assist in remediation activities. The internal controls team also facilitated a USAC-wide effort to update and improve our policies and procedures. During this effort, USAC produced a uniform set of documents that are in line with current operations and are written at a logical level of detail.

2. Strengthening audit and investigative techniques.

a) USAC has been assessing Rounds 2 and 3 of the FCC Office of Inspector General (OIG) USF audit program audits where additional work was needed in order to reduce the number of disclaimed and adverse opinions and to provide specific amounts to be recovered. USAC is pursuing collection of all identified Schools and Libraries and HCLI Support Mechanism audit recoveries. USAC released a follow-up report on December 15, 2010 summarizing the audit work conducted by independent audit firms after the FCC OIG issued its initial statistical analysis demonstrating the correct estimated improper payment rate to be 2.7%, with a margin of error or +/-0.6%. Many payments initially deemed “improper” for IPIA reporting purposes were in fact made in compliance with program rules.

The initially reported estimated improper payment rate of 23.3% was based on substantially incomplete audit work. Because the FCC OIG required audit firms to report preliminary estimated improper payment information as of July 31, 2008,

Universal Service Administrative Company 2Q2011 Fund Size Projections

the \$472.5 million first reported as “improper” did not reflect the results of a standard quality assurance review process, which was completed in August 2008.

Also, the FCC OIG advised USAC in February 2010 to complete audits on 27 companies performed in Round 2 where the audit firm had to withdraw from the audit at the direction of the FCC OIG. USAC was unable to complete audit work for six of the 27 companies because they would not release certain line count information citing concerns that such release would violate the Electronic Communications Privacy Act (the ECPA) (18 USC §§ 2702-03). Total disbursements examined under these audits was \$30,848,637. These audits remain open pending discussions among the companies, USAC and FCC staff. The remaining audit fieldwork for the High Cost support mechanism is complete and the reports were finalized by the October 2010 quarterly meetings.

b) USAC implemented the Payment Quality Assurance (PQA) program in August 2010. PQA was implemented to assist the FCC in its compliance with the reporting requirements of the Improper Payment Information Act (IPIA) of 2002. Using a statistically drawn sample, each month USF program disbursements are selected and reviewed to verify that payments were made at the correct amount in accordance with FCC rules.

3. Improving information technology tools.

USAC prepared a request for proposals (RFP) for the software procurement and systems integration of the USAC and USF financial systems modernization (FSM) project. The goals of FSM are to provide a more robust, flexible infrastructure to support all aspects of USAC operations. USAC has submitted relevant procurement documents to the FCC for approval prior to initiating procurement activities.

4. *Expanding and enhancing outreach and education.*

In 4Q2010, USAC provided individual outreach to 193 USF contributors, and for the year as a whole, to 265 Schools and Libraries applicants. USAC conducted the fifth of five training sessions for High Cost and Low Income program beneficiaries and the final seven of 10 scheduled Schools and Libraries training sessions. USAC conducted two additional training sessions for service providers in the Schools and Libraries Program that were added to the year's schedule as a result of the release of the FCC's Sixth Report and Order. USAC conducted three webinars for USF service providers, and one for the Low Income program. USAC also participated in seven professional meetings.

FUNDING REQUIREMENTS

HIGH COST SUPPORT MECHANISM

ELIGIBLE TELECOMMUNICATIONS CARRIER (ETC) DESIGNATION

A requirement of eligibility for receipt of High Cost support is that a common carrier must be designated as an eligible telecommunications carrier (ETC) by a state commission or the FCC in accordance with Subpart F of Part 36 and Subpart D of Part 54 of the Commission's rules.⁹ ETCs are eligible to receive funds from the High Cost Support Mechanism,¹⁰ which includes High Cost Loop Support, Interstate Access Support, Local Switching Support, Interstate Common Line Support, and High Cost Model Support. Together, the projected requirements for these five components of the High Cost Support Mechanism and USAC administrative expenses constitute the overall funding requirement for the High Cost Support Mechanism.

⁹ See 47 U.S.C. § 214(e); 47 C.F.R. § 54.201.

¹⁰ 47 C.F.R. § 36.631 and 47 C.F.R. §§ 54.301-54.303, 54.309, 54.311, 54.807 and 54.901.

Universal Service Administrative Company 2Q2011 Fund Size Projections

The High Cost Support Mechanism provides support to more than 1,800 study areas, including those served by both incumbent and competitive ETCs.

The table below contains the number of study areas served by rural versus non-rural carriers and rate-of-return versus price cap carriers.

INTERIM HIGH COST SUPPORT CAP AND PHASE DOWNS FOR COMPETITIVE CARRIERS

In an order released on May 1, 2008, the FCC capped the amount of CETC High Cost support.¹¹ On the August 1, 2008 effective date of the order, total annual CETC support for each state was capped at the level of support that CETCs in that state were eligible to receive during March 2008 on an annualized basis.¹² Projections for each component of High Cost support will reflect both the capped CETC support amounts and the uncapped CETC support amounts. Additionally, support to Verizon Wireless and Sprint Nextel CETCs are subject to further High Cost support reductions as required by Commission orders.¹³ While the total capped CETC support is included in the total fund requirement, these further reductions in support to Verizon Wireless and Sprint Nextel will

be continue to be collected from USF contributors and reserved pursuant to FCC 10-155.¹⁴ Total capped CETC High Cost support demand for 2Q2011 is \$339.90 million and total uncapped CETC High Cost support demand is \$504.13 million for 2Q2011.

Appendix HC01 provides projected High Cost support with capped CETC support by state, by study area, for 2Q2011. HC01 also provides the projected capped amount of individual company support segregated by rural and non-rural status, and projected per-month capped amounts for the components of High Cost support that each ETC¹⁵ may be eligible to receive. Appendix HC01A provides the projected uncapped amount of individual company support segregated by rural and non-rural status. HC01A also contains the projected per-month uncapped amounts for the components of High Cost support that each ETC¹⁶ may be eligible to receive. HC02 provides the total projected capped amount of annualized High Cost support for 2Q2011 for each state and territory. HC03 provides rural study areas with competition. HC04 provides disaggregated per-line High Cost support by zone, consistent with disaggregation plans filed with USAC.

FUNDS RESERVED PURSUANT TO FCC 10-155

In FCC 10-155, the FCC directed that reclaimed funds be reserved for proposed broadband universal service reforms.¹⁷ Specifically, the FCC instructed USAC to continue projecting CETC support at the interim cap amount, independent of the merger commitments of Verizon Wireless and Sprint Nextel and the projected disbursements for individual CETCs that would otherwise not reach the existing interim cap amount for any given jurisdiction. For 2Q2011, projected support to be reserved pursuant to FCC 10-155 is \$65.93 million.

HIGH COST RURAL SUPPORT

High Cost Loop Support (including Safety Net Additive and Safety Valve Support)

High Cost Loop (HCL) Support is calculated based on the results of the annual collection of 2009 incumbent local exchange carrier (LEC) loop cost and expense adjustment data that was submitted to the FCC and USAC on October 1, 2010.¹⁸ Growth in total HCL Support for rural LECs is limited under Section 36.603(a) of the Commission's rules to the current level of funding increased yearly by the annual growth in supported rural loops.¹⁹ The *RTF Order*²⁰ increased HCL Support for rural LECs effective July 1, 2001.

Rural incumbent LEC HCL Support for calendar year 2011 will be less than the level of payments for 2010 because of a rural growth factor of negative 5.8243 percent. Rural incumbent LEC HCL Support for calendar year 2011, therefore, is capped at \$905.90 million.

Pursuant to the *RTF Order*, Safety Net Additive (SNA) Support is support above the HCL cap for carriers that make significant investment in rural infrastructure in years in which HCL is capped.²¹ To receive support, a rural carrier must show that growth in telecommunications plant in service (TPIS) per line is at least 14 percent greater than the study area's TPIS in the prior year. Carriers seeking to qualify for SNA Support must provide written notice to USAC that a study area meets the 14 percent TPIS trigger.²² For 2Q2011, projected SNA Support is \$22.64 million.

Universal Service Administrative Company 2Q2011 Fund Size Projections

Also pursuant to the *RTF Order*, Safety Valve Support (SVS) is support above the HCL cap for rural carriers that acquire high cost exchanges and make substantial post-transaction investments to enhance network infrastructure.²³ SVS is 50 percent of the difference between the index year HCL Support amount and the HCL Support amount in subsequent years.²⁴ SVS is subject to an overall cap of no more than five percent of the HCL fund in any given year.²⁵ For 2Q2011, projected SVS is \$1.57 million.

For 2Q2011, USAC projected HCL Support is \$304.18 million. Of this amount, \$226.37 million is associated with rural incumbent carriers and \$77.81 million is the capped amount associated with CETCs (uncapped CETC support is \$137.56 million). In addition, 2Q2011 SNA Support is projected to be \$22.64 million and SVS is projected to be \$1.57 million. Based on these projections, total 2Q2011 HCL Support is projected to be \$328.39 million, and total annual 2011 HCL Support is estimated to be \$1,312.88 million.

Appendix HC05 provides projected uncapped monthly HCL Support payments by state by study area for 2Q2011. HC06 provides projected uncapped monthly SNA Support payments by state by study area for 2Q2011. HC07 displays uncapped SVS for 2Q2011.

Local Switching Support

ETC study areas having 50,000 or fewer access lines are eligible to receive support for local switching costs.²⁶ Local Switching Support (LSS) is the product of a carrier's annual

²⁴ See 47 C.F.R. § 54.305(c). In an order released on January 10, 2005, the FCC amended Section 54.305 so that it does not apply to transfers of exchanges between non-rural carriers after the phase-down of interim hold harmless support. See *Federal-State Joint Board on Universal Service, National Telephone Cooperative Association Petition for Reconsideration*, CC Docket No. 96-45, Order and Order on Reconsideration, FCC 05-1, 20 FCC Rcd 768, 772, ¶ 9 (2005). In addition, the FCC amended Section 54.305 to provide that rural carriers that acquire high cost exchanges may receive SVS for the investment made in the first year of operating the acquired exchanges. *Id.* at ¶ 10.

unseparated local switching revenue requirement multiplied by its local switching support factor.²⁷

For 2Q2011, LSS is projected to be \$13.76 million for incumbent average schedule carriers and \$59.35 million for incumbent cost study carriers. In addition, 2Q2011 LSS for CETCs is projected to be \$22.79 million (capped amount). The uncapped amount is \$40.89 million. USAC projects, therefore, that \$95.90 million will be required for 2Q2011. Based on these projections, total annual 2011 LSS is estimated to be \$328.70 million.

Individual study area LSS projections per month are contained in Appendix HC08.

INTERSTATE COMMON LINE SUPPORT

Interstate Common Line Support (ICLS) is designed to permit each rate-of-return carrier to recover its common line revenue requirement, while ensuring that its subscriber line charges (SLCs) remain affordable to its customers.²⁸

For 2Q2011, ICLS for incumbent rate-of-return carriers is projected to be \$278.06 million. In addition, 2Q2011 ICLS for CETCs is projected to be \$122.31 million (capped amount). The uncapped amount is \$203.87 million. USAC projects, therefore, that \$400.37 million in ICLS will be required for 2Q2011. Based on these projections, total annual 2011 ICLS is estimated to be \$1,604.79 million.

Appendices HC09, HC10 and HC11 provide USAC's 2Q2011 uncapped projections of ICLS by study area, per line and by state, respectively. HC22 and HC23 provide the revised projected 2009 to 2010 Program Year ICLS by study area and per line. HC24 and

²⁷ The LSS factor is defined as the difference between the 1996 weighted interstate Dial Equipment Minute (DEM) factor and the 1996 unweighted DEM factor.

HC25 provide the revised projected 2010 to 2011 Program Year ICLS by study area and per line.

INTERSTATE ACCESS SUPPORT

Interstate Access Support (IAS) helps offset interstate access charges for price cap companies.²⁹ The *Interstate Access Order* targets the support mechanism at \$650 million annually for five years.³⁰

The IAS projected industry-wide totals for 2Q2011 are \$32.61 million for rural incumbent carriers and \$82.58 million for non-rural incumbent carriers. The High Cost support Interim Cap³¹ limits IAS CETC support to \$18.83 million (\$64.32 million is uncapped CETC support). USAC projects \$134.02 million will be required for 2Q2011 with total annual IAS estimated to be \$539.61 million.

Appendices HC12, HC13, and HC14 provide USAC's 2Q2011 uncapped IAS projected by study area, line, and state, respectively.

NON-RURAL FORWARD-LOOKING SUPPORT

Under the most recent calculation of forward-looking High Cost Model (HCM) Support, non-rural carriers in 10 states (Alabama, Kentucky, Maine, Mississippi, Montana, Nebraska, South Dakota, Vermont, West Virginia, and Wyoming) are eligible to receive forward-looking support in 2011.³²

For 2Q2011, USAC projects \$73.84 million will be required for HCM Support, which consists of \$36.50 million for incumbent non-rural carriers and \$37.34 million of

capped support for CETCs (\$48.23 million is uncapped CETC support). Based on these projections, total annual 2011 HCM Support is estimated to be \$296.57 million.

Appendices HC15, HC16, and HC17 provide USAC's 2Q2011 uncapped projections of non-rural forward-looking support by wire center, state, and study area, respectively.

COMPETITIVE ETC LINES

Appendix HC18 provides CETC lines reported for HCL Support by incumbent study area. HC19 provides CETC lines reported for ICLS by incumbent study area. HC20 provides CETC lines reported for IAS by incumbent study area. HC21 provides CETC lines reported for HCM Support by incumbent study area.

HIGH COST SUPPORT MECHANISM SUMMARY

The estimated 2Q2011 High Cost Support Mechanism funding requirement is \$1,032.52 million, which includes \$328.39 million for HCL Support (including SNA and SVS), \$95.90 million for LSS, \$400.37 million for ICLS, \$134.02 million for IAS, and \$73.84 million for HCM Support. The above funding requirements reflect capped and phased down CETC support consistent with the Commission orders.³³ Sections 54.709(b) and 54.709(c) of the Commission's rules require USAC to adjust the size of the projected support requirements to reflect adjustments based on actual dollar amounts compared to the projections included in the prior period.³⁴ Increases in the size of the funding requirement for the prior period are added to the projected requirements; decreases from the prior period are subtracted from the projected revenue requirements.

The FCC recently waived on an interim basis 47 C.F.R. § 54.709(b) for CETC support, which requires that USAC account for any difference between its projected revenue requirements and its actual revenue requirements as a prior period adjustment in the next

quarterly demand filing.³⁵ The FCC explained in the order that this temporary waiver is to reserve funds as a down payment for the National Broadband Plan.³⁶

Results for the Fourth Quarter 2010 (4Q2010) contributed to an under-funded condition for which this filing proposes to adjust the 2Q2011 funding requirements. The total adjustment to the 2Q2011 fund requirement based on actual results will increase the funding needed by \$23.80 million. The explanation for the adjustment is described in the following table:

Reason for the Prior Period Adjustment	Adjustment in Millions
4Q2010 billings were higher than the projected revenues reported by contributors in their quarterly revenue projections.	(\$2.04)
High Cost Support Mechanism distributions were higher than projected in 4Q2010	39.55
Interest income was higher than estimated for 4Q2010.	(0.03)
Bad debt expense was lower than anticipated.	(13.68)
Total Prior Period Adjustment	\$23.80³⁷

The total fund requirement, including funds reserved pursuant to FCC 10-155,³⁸ is \$1,098.45 million and is adjusted as follows: increased by the prior period adjustments of \$23.80 million, increased by administrative costs of \$4.46 million, and reduced by the projected interest income of \$0.13 million; resulting in a total projected 2Q2011 funding requirement for the High Cost Support Mechanism of \$1,126.58 million.

Appendix M02 provides information on the individual components of the funding requirement for the quarter.

³⁵ See FCC 10-155, ¶ 22.

³⁶ *Id.*

³⁷ Interim waiver of 47 C.F.R. § 54.709(b) is for High Cost CETC projections versus disbursements adjustment. Other prior period adjustments, such as ILEC distributions, billings, interest income and bad debt, must continue to be accounted for.

³⁸ See FCC 10-155, ¶ 22.

LOW INCOME SUPPORT MECHANISM

LIFELINE SUPPORT

All ETCs must offer Lifeline support to qualified low-income consumers.³⁹ ETCs providing Lifeline support in accordance with Subpart E of Section 54 of the Commission's rules are entitled to receive funding from the Low Income Support Mechanism for the waiver of charges and reduced rates provided to qualified low-income subscribers.⁴⁰ Lifeline support provides funding from the interstate jurisdiction of up to \$10.00 per low-income subscriber per month, which can consist of a baseline amount of between \$3.50 and \$6.50 (Tier One),⁴¹ an additional \$1.75 per subscriber if the state commission authorizes a reduction in local rates equal to that amount (Tier Two), and up to an additional \$1.75 from the mechanism if the state provides support for the low-income subscriber as well (Tier Three).⁴² Further, up to an additional \$25 per low-income subscriber per month is available to eligible residents of tribal lands (Tier Four).⁴³

For 2Q2011, USAC projects \$358.16 million will be required for Lifeline support. Based on this projection, total annual 2011 Lifeline support is estimated to be \$1,415.50 million.

³⁹ See 47 C.F.R. § 54.201.

⁴⁰ 47 C.F.R. §§ 54.401-54.417.

⁴¹ Tier One support, which compensates the carrier for not charging the subscriber line charge (SLC) to eligible low-income customers, ranges from \$3.50 to \$6.50. See *Interstate Access Order* at ¶ 70 (permitting the baseline subscriber line charge to increase for price cap carriers from \$3.50 to \$4.35 effective July 1, 2000, and to increase again from \$4.35 to \$5.00 effective July 1, 2001); *MAG Order* at ¶ 42 (permitting rate-of-return carriers to increase their baseline subscriber line charge to \$5.00 effective January 1, 2002); *Cost Review Proceeding for Residential and Single-Line Business Subscriber Line Charge (SLC) Caps, Access Charge Reform, and Price Cap Performance Review for Local Exchange Carriers*, CC Docket Nos. 96-262, 94-1, Order, FCC 02-161 (rel. June 5, 2002) (*2002 SLC Order*) (authorizing an increase in the baseline subscriber line charge for price cap and rate-of-return carriers to \$6.00, effective July 1, 2002, and to \$6.50, effective July 1, 2003).

⁴² Tier Three support is equal to one-half of a state-funded amount up to \$3.50. For example, if a carrier operating in a state that has a matching program that provides \$3.50 in support through the matching program reduces its intrastate rates by \$10.00 for low-income customers, the customer would experience a total monthly rate reduction of \$13.50 (\$3.50 in interstate charges and \$10.00 in intrastate charges) of which \$10.00 would be funded from the federal jurisdiction and \$3.50 from the state matching program.

⁴³ 47 C.F.R. § 54.400(e).

LINK UP AMERICA

Link Up support compensates ETCs up to \$30 per eligible subscriber for revenue foregone in offering discounted service initiation fees to qualified low income individuals.⁴⁴ The *Tribal Order* authorized additional Link Up support of up to \$70 per qualified low income subscriber residing on eligible tribal lands.⁴⁵ For 2Q2011, USAC projects that \$20.27 million will be required for Link Up support. Based on this projection, total annual 2011 Link Up support is estimated to be \$83.94 million.

TOLL LIMITATION SUPPORT

Toll Limitation Support (TLS) compensates ETCs for providing voluntary toll-limitation service based on the carrier's incremental cost of providing toll-limitation services. The Commission has defined these costs as the costs that carriers otherwise would not incur if they did not provide toll-limitation service to a given customer.⁴⁶ Toll limitation consists of toll blocking, which permits consumers to elect not to allow the completion of outgoing toll calls, and toll control, which allows consumers to specify a certain amount of toll usage that may be incurred per month or per billing cycle.⁴⁷ For 2Q2011, USAC projects that \$5.36 million will be required for TLS. Based on this projection, total annual 2011 TLS is estimated to be \$22.62 million.

LOW INCOME SUPPORT MECHANISM SUMMARY

The estimated 2Q2011 Low Income Support Mechanism funding requirement is \$383.79 million, which includes \$358.16 million for Lifeline, \$20.27 million for Link Up, and \$5.36 million for Toll Limitation Service. Results of 4Q2010 contribute to an over-funded

condition, for which this filing proposes to adjust the 2Q2011 funding requirement. The total adjustment to the 2Q2011 funding requirement based on actual results will decrease the funding needed by \$12.39 million. The explanation for the adjustment is described in the following table:

Reason for the Prior Period Adjustment	Adjustment in Millions
4Q2010 billings were higher than the projected revenues.	(\$0.38)
Low Income Support Mechanism distributions were lower than projected in 4Q2010.	(7.99)
Interest income was higher than estimated for 4Q2010.	(0.10)
Bad debt expense was lower than anticipated.	(3.92)
Total Prior Period Adjustment	(\$12.39)

The total fund requirement of \$383.79 million, decreased by the prior period adjustment of \$12.39 million, increased for administrative expenses of \$2.09 million, and decreased by projected interest income of \$0.15 million, results in a total projected funding requirement for the Low Income Support Mechanism for 2Q2011 of \$373.34 million.

RURAL HEALTH CARE SUPPORT MECHANISM

Following is a summary of Rural Health Care Support Mechanism commitments and disbursements for Funding Years 2005-10 as of December 31, 2010. Prior funding years are closed.

FUNDING YEAR 2005

Funding Year 2005 began on July 1, 2005 and ended on June 30, 2006. As of December 31, 2010, a total of 3,449 FCC Form 465s were posted and 5,549 packets were received.

The status of Funding Year 2005 packets is provided in the following table:

On September 29, 2006, the FCC released an order establishing a new two-year Rural Health Care Support Mechanism Pilot Program for Funding Years 2006 and 2007 to cover “up to 85 percent of an applicant’s costs of deploying a dedicated broadband network.”⁵² The application window for the Pilot Program opened on March 8, 2007 and closed on May 7, 2007.⁵³ On November 19, 2007, the FCC released an order increasing the number of funding years to three for the Pilot Program and awarding \$417.78 million in support to 69 applications over funding years 2007, 2008 and 2009.⁵⁴ Support under the Pilot Program is capped at \$139.26 million in each of the three funding years. The Commission stated that monies collected in funding year 2006 for the Pilot Program should

be applied to Funding Year 2007,⁵⁵ resulting in \$54.44 million of funds collected for Funding Year 2006 being reallocated to Funding Year 2007.

As of December 31, 2010, primary program funding commitments have been issued totaling \$46.48 million. Based on information provided by applicants, USAC now estimates Funding Year 2006 primary program demand will be \$45.21 million. The Commission previously authorized collection of \$45.26 million for Funding Year 2006. Considering the revised primary program demand estimate for Funding Year 2006, USAC recommends the Commission decrease collections for Funding Year 2006 of the primary program by \$0.05 million in 2Q2011.

Authorized funding by applicant during 4Q2010 and disbursements made to service providers during 4Q2010 are listed in Appendices RH03 and RH04, respectively.

FUNDING YEAR 2007

Funding Year 2007 began on July 1, 2007 and ended on June 30, 2008. The filing window for Funding Year 2007 opened on March 12, 2007. As of December 31, 2010, a total of 3,564 Form 465s were posted and 6,778 packets were received.

Universal Service Administrative Company 2Q2011 Fund Size Projections

As of December 31, 2010, Pilot Program funding commitments have been issued totaling \$0.48 million. Based on information provided by applicants, USAC now estimates Funding Year 2007 Pilot Program demand will be \$0.47 million. In accordance with the instructions in a January 17, 2008 letter from the Chief of the FCC Wireline Competition Bureau allowing Pilot Program participants to roll forward support not used in one year to a subsequent funding year, USAC carried forward funds not used in Funding Year 2007 to Funding Year 2008 and Funding Year 2009. USAC has collected \$139.26 million for each of the Pilot Program Funding Years, thus no further collection is necessary.

As of December 31, 2010, primary program funding commitments have been issued totaling \$56.90 million. Based on information provided by applicants USAC estimates Funding Year 2007 primary program demand will be \$55.22 million. The Commission previously authorized collection of \$55.25 million for Funding Year 2007. Considering the revised primary program demand estimate for Funding Year 2007, USAC recommends the Commission decrease collections for Funding Year 2007 of the primary program by \$0.03 million in 2Q2011.

Funding commitments made during 4Q2010 are included in Appendix RH05. Authorized funding by applicant during 4Q2010 and disbursements made to service providers during 4Q2010 are listed in Appendices RH06 and RH07, respectively.

FUNDING YEAR 2008

Funding Year 2008 began on July 1, 2008 and ended on June 30, 2009. The window for Funding Year 2008 opened on April 8, 2008. As of December 31, 2010, a total of 3,563 Form 465s were posted and 7,396 packets were received.

As of December 31, 2010, Pilot Program funding commitments have been issued totaling \$16.75 million for Funding Year 2008. Based on information provided by applicants, USAC now estimates Funding Year 2008 Pilot Program demand will be \$16.34 million. In accordance with the instructions in a January 17, 2008 letter from the Chief of the FCC Wireline Competition Bureau allowing Pilot Program participants to roll forward support not used in one year to a subsequent funding year, USAC carried forward funds not used in Funding Year 2008 to Funding Year 2009. USAC has collected \$139.26 million for each of the Pilot Program Funding Years, thus no further collection is necessary.

As of December 31, 2010, primary program funding commitments have been issued totaling \$66.93 million. Based on information provided by applicants USAC estimates Funding Year 2008 primary program demand will be \$65.33 million. The Commission previously authorized collection of \$65.34 million for Funding Year 2008. Considering the revised primary program demand estimate for Funding Year 2008, USAC recommends the Commission decrease collections for Funding Year 2008 of the primary program by \$0.01 million in 2Q2011.

Funding commitments made during 4Q2010 are included in Appendix RH08. Authorized funding by applicant during 4Q2010 and disbursements made to service providers during 4Q2010 are listed in Appendices RH09 and RH10, respectively.

FUNDING YEAR 2009

Funding Year 2009 began on July 1, 2009 and ended on June 30, 2010. The window for Funding Year 2009 opened on April 9, 2009. As of December 31, 2010, a total of 3,942 Form 465s were posted and 8,012 packets were received.

The status of Funding Year 2009 packets is provided in the following table:

As of December 31, 2010, Pilot Program funding commitments have been issued totaling \$104.20 million for Funding Year 2009. In accordance with the instructions in a January 17, 2008 letter from the Chief of the FCC Wireline Competition Bureau allowing Pilot Program participants to roll forward support not used in one year to a subsequent funding year, USAC has previously carried forward funds not used in Funding Year 2007 and Funding Year 2008 to Funding Year 2009. Based on information provided by applicants, USAC now estimates Funding Year 2009 Pilot Program demand will be \$400.97 million. USAC has collected \$139.26 million for each of the Pilot Program Funding Years, thus no further collection is necessary.

As of December 31, 2010, primary program funding commitments have been issued totaling \$71.05 million. Based on information provided by applicants, USAC now estimates Funding Year 2009 primary program demand will be \$72.27 million. The Commission previously authorized collection of \$72.42 million for Funding Year 2009. Considering the

Universal Service Administrative Company 2Q2011 Fund Size Projections

revised primary program demand estimate for Funding Year 2009, USAC recommends the Commission decrease collections for Funding Year 2009 of the primary program by \$0.15 million in 2Q2011.

Funding commitments made during 4Q2010 are included in Appendix RH11. Authorized funding by applicant during 4Q2010 and disbursements made to service providers during 4Q2010 are listed in Appendices RH12 and RH13, respectively.

FUNDING YEAR 2010

Funding Year 2010 began on July 1, 2010 and will end on June 30, 2011. The window for Funding Year 2010 opened on March 15, 2010.

Based on information provided by applicants, USAC now estimates Funding Year 2010 primary program demand will be \$82.27 million. The Commission previously authorized collection of \$61.74 million for Funding Year 2010. Considering the revised primary program demand estimate for Funding Year 2010, USAC recommends the Commission increase collections for Funding Year 2010 of the primary program by \$20.53 million in 2Q2011.

Funding commitments made during 4Q2010 are included in Appendix RH14. Authorized funding by applicant during 4Q2010 and disbursements made to service providers during 4Q2010 are listed in Appendices RH15 and RH16, respectively.

RURAL HEALTH CARE SUPPORT MECHANISM SUMMARY

The estimated 2Q2011 Rural Health Care Support Mechanism demand requirement is \$20.29 million (\$20.53 million for Funding Year 2010, minus \$0.15 million for Funding Year 2009, minus \$0.01 million for Funding Year 2008, minus \$0.03 million for Funding Year 2007, minus \$0.05 million for Funding Year 2006).

The results of 4Q2010 contributed to an over-funded condition for which this filing

Universal Service Administrative Company 2Q2011 Fund Size Projections

proposes to adjust the 2Q2011 funding requirements. The total adjustment to the 2Q2011 funding requirement based on actual results will decrease the funding needed by \$0.48 million. The explanation for the adjustment is provided in the following table:

Reason for the Prior Period Adjustment	Adjustment in Millions
4Q2010 billings were higher than the projected revenues reported by contributors in their quarterly revenue projections.	(\$0.06)
Interest income was higher than estimated for 4Q2010.	(0.21)
Bad debt expense was lower than anticipated.	(0.21)
Total Prior Period Adjustment	(\$0.48)

The total fund requirement of \$20.29 million, decreased by the prior-period adjustment of \$0.48 million, increased for administrative expenses of \$3.67 million, and decreased by projected interest income of \$0.58 million, results in a total projected funding requirement for the Rural Health Care Support Mechanism for 2Q2011 of \$22.90 million.

SCHOOLS AND LIBRARIES SUPPORT MECHANISM

Following is a summary of Schools and Libraries Support Mechanism net commitments⁵⁶ and net authorized for payment⁵⁷ by funding year as of December 31, 2010.

⁵⁶ Net Commitments are the amount of total funding commitments (including appeals, less funding commitment adjustments (COMADs) and other recaptures) reduced by the remaining dollar amount of commitments that had not been fully disbursed by their invoicing deadline.

⁵⁷ Net authorized for payment is the amount of total approved invoices less any returned funds.

SCHOOLS AND LIBRARIES SUPPORT MECHANISM SUMMARY

In a series of actions from December 1999 through December 2002, the Commission used a net total of \$477.16 million of undisbursed Funding Year 1998 Schools and Libraries Support Mechanism funds to reduce USF collection requirements. Consistent with the Commission's direction in the Schools and Libraries First Report and Order, a total of \$852.12 million of undisbursed Funding Years 1999 and 2000 collections were used to

Universal Service Administrative Company 2Q2011 Fund Size Projections

stabilize USF contributions and offset collections for 3rd Quarter 2002 (3Q2002), 4th Quarter 2002 (4Q2002), and 1st Quarter 2003 (1Q2003).⁵⁸

In the *Schools and Libraries Third Report and Order and Second Further Notice of Proposed Rulemaking*, the Commission amended its rules to allow unused funds from prior funding years to be carried forward on an annual basis in the second quarter of each calendar year for use in the next full funding year.⁵⁹ The Commission required USAC to file quarterly estimates of unused funds from prior funding years in submitting its projection of Schools and Libraries Support Mechanism demand for the upcoming quarter. The Commission modified the schedule to implement the process for Funding Year 2003 and directed USAC to carry forward \$420 million of unused prior year funds for use in Funding Year 2003.⁶⁰ In accordance with the *Schools and Libraries Third Report and Order*, the Commission announced that \$150 million in unused funds from Funding Year 2001 would be carried forward to increase disbursements to schools and libraries in Funding Year 2004.⁶¹

On June 11, 2007, the Commission instructed USAC to carry forward \$650 million in unused funds to Funding Year 2007.⁶² The funds were carried forward from Funding Years 2001, 2002, 2003 and 2004 in the amount of \$50 million, \$300 million, \$150 million and \$150 million, respectively. On June 23, 2008, the Commission instructed USAC to carry forward \$600 million in unused funds to Funding Year 2008.⁶³ The funds were carried forward from Funding Years 2002, 2003 and 2004 in the amount of \$150 million, \$200

million and \$250 million, respectively. On July 31, 2009, the Commission instructed USAC to carry-forward \$900 million in unused funds to Funding Year 2009.⁶⁴ The funds were carried-forward from Funding Years 1999, 2001, 2002, 2003, 2004, 2005, and 2006 in the amount of \$25 million, \$60 million, \$60 million, \$210 million, \$275 million, \$200 million, and \$70 million, respectively. On July 1, 2010, the Commission instructed USAC to carry forward \$900 million in unused funds to Funding Year 2010.⁶⁵ The funds were carried-forward from Funding Years 2002, 2005, 2006, 2007, and 2008 in the amount of \$25 million, \$100 million, \$300 million, \$375 million, and \$100 million, respectively.

In the *Schools and Libraries Sixth Report and Order*, the Commission amended its rules to increase the cap on program funding by indexing the cap to inflation.⁶⁶ The Commission calculates this annual increase by using the percentage increase in the gross domestic product chain – type price index (GDP-CPI) from the previous year and rounds this to the nearest 0.1 percent. The Commission found that the GDP-CPI increased 0.9 percent between 2008 to 2009. Using this analysis, the Commission set the cap for Funding Year 2010 to \$2,270,250,000.

In consultation with FCC staff, USAC estimates that \$400 million is available to carry forward from funding years as follows: 2003: \$20 million; 2004: \$50 million; 2005: \$110 million; 2006: \$85 million; 2007: \$115 million; and 2008: \$20 million. The following sections provide information regarding the use of funds for each funding year, including adjustments made by the Commission and projections of unused funds as required by Commission rules.

Funding Year 1998 True-Up

As of December 31, 2010, \$1,398.93 million of Funding Year 1998 support had been authorized for disbursement. USAC estimates that a contingency amount of \$7.12 million should be reserved to pay appeals pending at the Commission and to pay invoices on Funding Year 1998 funding requests that may be granted extended invoice deadlines pursuant to Commission orders. Given these requirements and to preserve the contingency amount, USAC estimates that no Funding Year 1998 funds are available to carry forward. The estimated remaining Funding Year 1998 balance is based on the following:

FUNDING YEAR 1998	Amounts in Millions
Amount Authorized and Actually Collected	\$1,925.00
Amount Authorized for Disbursement	(1,398.93)
Administrative Expenses (21 months)	(41.79)
Amount Applied to Adjust 2000, 2001, and 2002 Collections	(477.16)
Potential Additional Disbursements on Committed FRNs	(0.00)
Contingency Amount for Pending Appeals and Invoice Deadline Extension Requests	(7.12)
Estimated Remaining Balance	\$0.00

Funding Year 1999 True-Up

As of December 31 2010, \$1,654.00 million of Funding Year 1999 support had been authorized for disbursement. USAC's projection of the remaining Funding Year 1999 funds includes an estimate of funds needed to pay additional disbursements on committed funding requests and a contingency reserve to pay pending appeals and make disbursements on Funding Year 1999 funding requests that may be granted extended invoice deadlines pursuant to Commission orders. Given these requirements and to preserve the contingency amount, USAC estimates that no Funding Year 1999 funds are available to carry forward. The estimated remaining Funding Year 1999 balance is based on the following:

2Q2011 Demand Estimate and Contribution Requirement

USAC changed the accounting methodology for the USF to generally accepted accounting principles for federal agencies on October 1, 2004 to comply with the Commission's Order of October 3, 2003.⁶⁷ Commission staff subsequently determined that Funding Commitment Decision Letters (FCDLs) for the Schools and Libraries Support Mechanism are to be treated as "obligations" for federal budgetary accounting purposes and subject to the requirements of the Antideficiency Act (ADA).⁶⁸ The ADA generally requires that sufficient unobligated resources be available before an obligation can be incurred. Congress exempted the USF from the requirements of the ADA through December 31, 2011.⁶⁹

To reduce the USF cash reserve that has accumulated primarily because the structure of the program necessarily results in significant time lags between the commitments and actual disbursements while at the same time retaining the ability for the USF to satisfy all outstanding commitments based on historic disbursement patterns, the Commission applied a total of \$550.00 million of the undisbursed USF balance from prior years against Schools and Libraries Support Mechanism demand in 2004. The Commission applied \$200.00 million of the cash balance in both Second Quarter and Third Quarter 2004, and \$150.00 million in Fourth Quarter 2004.⁷⁰

⁶⁷ See *In re Application of Generally Accepted Accounting Principles for Federal Agencies and Generally Accepted Government Auditing Standards to the Universal Service Fund*, CC Docket No. 96-45, Order, FCC 03-232, 18 FCC Rcd 19911 (2003).

See also H.R. 3288, Omnibus Appropriations Act, 2009 (Public Law 111-117), §501 ("Section 302 of the Universal Service Antideficiency Temporary Suspension Act is amended by striking 'December 31, 2009', each place it appears and inserting 'December 31, 2010'."); H.R. 5419, 108th Cong 2d Sess., §302, Universal Service Antideficiency Temporary Suspension Act (effective Dec. 23, 2004) and H.R. 2862, 109th Cong 1st Sess., 8,633, Science, State, Justice, Commerce, and Related Agencies Appropriations Act, 2006 (effective Nov. 22, 2005); H.J. 20 (effective January 1, 2007); Consolidated Appropriations Act of 2008, H.R. 2764, Division D—Financial Services and General Government Appropriations Act, 2008, Title V—Independent Agencies, at 61.

⁷⁰ As stated in its January 31, 2004, Federal Universal Service Support Mechanisms Fund Size Projections for the Second Quarter 2005, and in its subsequent quarterly filings, USAC will continue to consult with the Commission as appropriate concerning the necessity and timing of any recovery of this \$550 million.

Universal Service Administrative Company 2Q2011 Fund Size Projections

Based on the level of applicant demand in Funding Year 2010, which exceeds the annual funding cap of \$2.25 billion, USAC requests authority to collect an amount to provide \$562.50 million in funding for 2Q2011, which is one-quarter of the \$2.25 billion annual cap on federal universal service support for schools and libraries. Results for 4Q2010 contribute to an under-funded condition for which this filing proposes to adjust the 2Q2011 requirements. The total adjustment to the 2Q2011 fund requirement based on actual results will increase the funding needed by \$16.29 million. The explanation for the adjustment is provided below.

Reason for the Prior Period Adjustment	Adjustment in Millions
4Q2010 billings were higher than the projected revenues reported by contributors in their quarterly revenue projections.	(\$0.97)
Interest income higher than estimated for 4Q2010.	(1.08)
Bad debt expense was higher than anticipated.	18.34
Total Prior Period Adjustment	\$16.29

The total fund requirement of \$562.50 million is adjusted as follows: increased by the inflation increment of \$20.25 million, reduced by \$20.25 million transferred from funds reserved for Broadband initiatives as directed by the FCC, increased by the prior-period adjustment of \$16.29 million, and reduced by projected interest income of \$3.97 million; resulting in a projected collection requirement of \$574.82 million for the Schools and Libraries Support Mechanism for 2Q2011.

CONTRIBUTION BASE

USAC collects quarterly interstate and international revenue information from carriers on FCC Form 499-Q four times each year. USAC uses this information to determine aggregate projected revenue collections, which are filed with the Commission on

Universal Service Administrative Company 2Q2011 Fund Size Projections

March 2, June 1, September 1, and December 2 each year.⁷¹ Based on these filings, the Commission establishes the contribution factor for the upcoming quarter.

The quarterly USF contribution factor established by the Commission is derived from projections of support mechanism demand calculated by USAC and projected collected revenue submitted by USF contributors on FCC Form 499-Q and aggregated by USAC. The total USF funding requirement is based on many inputs and is the result of the manner in which the support mechanisms operate pursuant to Commission rules. Inputs include actual support mechanism demand, which changes quarterly, adjustments resulting from events that occur in prior periods but are reported to USAC in the current period, and reconciliation of projections from prior periods to actual results reported by USF contributors and support mechanism beneficiaries (i.e., prior period adjustments). Other inputs include USAC administrative expenses and the impact of interest income earned on USF funds USAC invests in United States Treasury securities. The USF contribution base is different each quarter due to changes in carrier revenue projections, which among other things are subject to changing business cycles, and changes to requirements concerning the revenue to which the USF assessment applies (e.g., adding or subtracting certain types of services to the contribution base due to rule changes or other Commission activity). Because of the combined influence of these many factors, nearly all of which change each quarter based on the manner in which the Commission rules operate and the programs are administered, the quarterly contribution factor established by the Commission derived from these USAC-submitted inputs can fluctuate substantially from quarter to quarter. Thus,

⁷¹ See 47 C.F.R. § 54.709(a)(3). The Form 499-Q includes a box for each of the quarterly filing submissions. Carriers check the appropriate box to indicate the quarter for which revenue information is being reported. See also, 47 C.F.R. §§ 54.706, .708, .711 and .713 for contributor reporting requirements.

comparisons to preceding or prior year quarters should be made with caution and predicting trends based on such comparisons may not provide a basis for meaningful analysis.

A total of 6,365 FCC Form 499-Q notifications were distributed to carriers in early January 2011. Interstate telecommunications service providers are required to complete this form, reporting January - March 2011 projected revenue information, and return it to USAC by February 1, 2011. USAC invoices and receives contributions from nearly 3,000 telecommunications companies each month.

USAC continues to assist the Commission in its USF collection enforcement efforts, including providing documentation on a monthly basis to assist the Commission in issuing Notices of Apparent Liability (NALs) and forfeiture orders against delinquent contributors and companies failing to file required forms. USAC transfers to the Commission amounts owed to the USF that are over 90 days delinquent after USAC has provided delinquent contributors with the notice required under Commission rules and the Debt Collection Improvement Action (DCIA).⁷² Upon receipt of the outstanding debts, the Commission provides delinquent contributors with notice advising them of their USF debt and the possibility of further enforcement activities pursuant to the DCIA and/or by the Commission's Enforcement Bureau. If a delinquent contributor fails to respond to the Commission's request for payment, the delinquent account is typically forwarded to the United States Treasury Department for collection.

USAC implemented the Red Light Rule on November 1, 2004 for contributor debts to the USF.⁷³ If a contributor is delinquent to the USF, USAC performs administrative offsets to resolve the delinquency by netting any pending service provider disbursements where the Service Provider Identification Number (SPIN) shares the same Taxpayer

Identification Number (TIN) as the delinquent contributor. If an entity is delinquent on a debt owed to the Commission, USAC places administrative holds on any disbursements for SPINs that share the same TIN until the Commission provides information stating that the debt has been satisfied. USAC continues to work closely with the Commission and stakeholders affected by the Red Light Rule implementation.

AUTHORIZATION TO FILE WITH THE COMMISSION

At their January 24, 2011 meetings, USAC's High Cost & Low Income, Rural Health Care and Schools & Libraries Committees adopted resolutions authorizing USAC staff to file with the Commission the 2Q2011 projected support mechanism funding requirements described herein. At its January 25, 2011 meeting, the USAC Board of Directors adopted a resolution authorizing the inclusion of the projected 2Q2011 administrative expenses in this report to the Commission.
