**FEDERAL UNIVERSAL SERVICE SUPPORT MECHANISMS FUND
SIZE PROJECTIONS FOR
FIRST QUARTER 2018**

INTRODUCTION

The Universal Service Administrative Company (USAC) hereby submits the federal Universal Service Support Mechanisms fund size and administrative cost projections for the first quarter of calendar year 2018 (1Q2018), in accordance with Section 54.709 of the Federal Communications Commission’s (FCC or Commission) rules.¹

USAC is the not-for-profit corporation responsible for administering the federal Universal Service Fund (USF) and the following Universal Service Support Mechanisms (also referred to as “Support Mechanisms” or “Programs”): High Cost, Low Income, Rural Health Care, and Schools and Libraries.² USAC also performs the billing, collection, and disbursement functions for the Support Mechanisms.³

Upon approval of the quarterly funding requirements for the Support Mechanisms, the projected administrative expenses, and the submission of the contribution base amount, the Commission will establish a quarterly contribution factor. USAC will bill USF contributors on a monthly basis for their individual obligations based on the approved contribution factor, collect amounts owed from contributors, and distribute funds to eligible recipients based on the schedules filed herein.⁴

***ADMINISTRATIVE EXPENSES AND INTEREST INCOME
PROJECTION***

ADMINISTRATIVE EXPENSES

Section 54.709(a)(3) of the Commission's rules requires USAC to submit its projected quarterly budget at least 60 days prior to the start of the quarter.⁵ USAC includes any costs that can be directly attributed to the High Cost, Low Income, Rural Health Care, and Schools and Libraries Support Mechanisms in the projected administrative expenses and capital expenditures of each mechanism. USAC's remaining joint and common costs including costs associated with the billing, collection, and disbursement of funds are included in the projected administrative expenses and capital expenditures of the respective support mechanisms based on USAC's methodology for allocating costs submitted to the Commission.⁶

USAC projects a consolidated operating and capital budget of \$60.87 million for 1Q2018. Direct operating costs for all support mechanisms total \$31.25 million⁷ and are listed for each mechanism in the chart provided below. Joint and common operating and capital costs (including billing, collection, and disbursement activities) are projected at \$27.99 million and direct capital expenditures for all support mechanisms are projected at \$1.63

⁵ 47 C.F.R. § 54.709(a)(3).

⁶ On January 1, 2006, USAC implemented a revised methodology for allocating joint and common costs that was filed with the Commission on October 3, 2005. *See* Letter from D. Scott Barash, USAC, to Marlene Dortch, FCC, CC Docket Nos. 97-21 *et al.* (Oct. 3, 2005) (explaining revisions to USAC's method for allocating joint and common administrative costs among the four Universal Service Support Mechanisms).

⁷ This amount includes \$0.1 million for High Cost data collection performed by the National Exchange Carrier Association (NECA). *See* 47 C.F.R. §§ 54.1305-1310, 69.603. Although USAC is required to pay for the data collection, it does not have the ability to directly oversee the effort and cannot verify, monitor, or otherwise evaluate the cost of performing the data collection function. Consistent with the fiduciary obligations of its members to safeguard USAC assets and the USF, USAC's Board of Directors has requested clarification from the Commission concerning this matter. *See* Letter from D. Scott Barash, USAC, to Irene Flannery, FCC (Dec. 10, 1999); Comments of the Universal Service Administrative Company, CC Docket No. 96-45 (filed Feb. 26, 2001); Comments of the Universal Service Administrative Company, WC Docket Nos. 05-195 *et al.*, CC Docket Nos. 96-45 *et al.* (filed Oct. 18, 2005); Reply Comments of the Universal Service Administrative Company, WC Docket Nos. 05-195 *et al.*, CC Docket Nos. 96-45 *et al.* (filed Dec. 19, 2005).

Total	\$31.25	\$27.99	\$1.63	\$60.87

Appendix M01 provides USAC’s administrative expense and capital expenditure budget for 1Q2018. Appendix M02 provides the fund size projections for 1Q2018.

INTEREST INCOME PROJECTION

For 1Q2018, USAC projects interest income of approximately \$4.48 million for the High Cost Support Mechanism, \$0.27 million for the Low Income Support Mechanism, \$1.02 million for the Rural Health Care Support Mechanism and \$9.56 million for the Schools and Libraries Support Mechanism for a total of \$15.34 million. As in previous quarters, projected interest income is being included as an offset to administrative expenses for each of the support mechanisms and reduces the amount that USAC will be required to collect from carriers for all support mechanisms.

FINANCIAL STATEMENTS

For 3Q2017, on a cash basis, USAC disbursed to beneficiaries \$2,266.79 million in universal service support as follows: \$1,174.23 million in High Cost support, \$308.77 million in Low Income support, \$685.11 million in Schools and Libraries support, and \$98.68 million in Rural Health Care support. The total cash balance available as of

Universal Service Administrative Company 1Q2018 Fund Size Projections

September 30, 2017 to the universal service support mechanisms was \$6,983.01 million. On an accrual basis, USAC had a fund balance of \$7,114.64 million at September 30, 2017.

Appendices M03 and M04 provide 2017 year-to-date statements of fund activity on a cash and accrual basis.

EFFORTS TO PREVENT AND REDUCE IMPROPER PAYMENTS

USAC has established a foundation of processes, systems, procedures, and outreach activities to prevent or reduce “improper” payments as defined by the Improper Payments Information Act of 2002 (Pub. L. No. 107-300).⁸ USAC is also evaluating additional measures that may help identify or reduce improper payments. USAC initiated efforts, consistent with its February 28, 2008 letter to the Commission, to identify additional measures to prevent or reduce potential improper payments and to allocate the additional resources needed to implement such measures.⁹ Commission staff directed USAC to report its progress in implementing proposed actions to prevent or reduce improper payments and to project the anticipated administrative costs of such actions on a quarterly basis.¹⁰

The steps initiated by USAC include additional oversight and managerial controls, strengthened audit and investigative techniques, improved information technology tools, and more effective use of outreach resources. In 4Q2017, USAC will continue efforts identified and initiated during the previous years. These efforts include, but are not limited to:

1. *Assessing and strengthening USAC’s internal controls*

The USAC Compliance and Risk Team (C&R Team) continues to develop and update required internal controls documentation. The Corporate Assurance group, housed

in the Internal Audit Division (IAD), tests the key controls of USAC's processes. The C&R Team reviews the outcome of the testing and ensures that the USAC internal controls program adheres to best practices consistent with OMB Circular A-123. Results of the 2016 testing were finalized and presented to USAC Leadership in 2Q2017. The C&R Team continues to track the completion of the remediation activities and corrective action plans for all control deficiencies developed in response to the 2016 testing results. The C&R Team established a framework for an Enterprise Risk Management (ERM) program at USAC to comply with recent changes to OMB Circular A-123.¹¹ The C&R Team and Corporate Assurance group meets with USAC Leadership quarterly through the Risk Management Council to report on risk-related functions in the enterprise.

In addition to documentation and risk management activities, the C&R Team continues to facilitate review and approval activities for all USAC policy and procedure documents, as well as provide assistance with ad hoc process improvement projects.

2. *Strengthening audit and investigative techniques.*

The FCC's Office of Managing Director (OMD) directed USAC to implement an assessment program to determine the rate of improper payments made to universal service support mechanism beneficiaries to support the FCC's reporting requirements under the Improper Payments Elimination and Recovery Improvement Act (IPERIA),¹² formerly known as the Improper Payments Information Act (IPIA),¹³ and to assess universal service support mechanism beneficiary compliance with FCC regulations.¹⁴ USAC successfully

Although not subject to IPERIA, USF contributor compliance with FCC regulations is assessed as part of the Beneficiary and Contributor Audit Program (BCAP).

Universal Service Administrative Company 1Q2018 Fund Size Projections

implemented an assessment program, known as the Payment Quality Assurance (PQA) Program, in August 2010.

The FCC also directed USAC to establish a comprehensive support mechanism Beneficiary and USF contributor audit program, which is known as BCAP (“Beneficiary and Contributor Audit Program”). Audits occurring under BCAP are performed using USAC’s Internal Audit Division (IAD) internal staff and external audit firm resources, upon approval from OMD. The specific audits that are being conducted as part of BCAP were designated based on a set of randomly selected beneficiaries and contributors. In addition, non-random audits of beneficiaries and contributors are performed when requested by USAC management to review whether a beneficiary or USF filer is complying with FCC rules.

As previously reported, in mid-2013, IAD and OMD staff began discussions on the development of a new audit plan that would address fiscal years 2014 and 2015. The audit plan was developed to cover audits announced beginning October 1, 2013 through December 31, 2015. In late 2014, the external portion of the BCAP began by issuing contracts to audit firms to perform audits. Contracts were awarded to eight firms, and they are now performing audits in all of the programs and contributor revenue. The chart below reflects audits that are performed both by USAC IAD and the external audit firms. As of the end of 3Q2017, the status of the BCAP 2014 - 2015 is as follows:

Program	Planned	Complete	In Process
Contributor Revenue	51	41	2
High Cost	100	85	8
Low Income	80	76	1
Schools & Libraries	145	130	0
Rural Health Care	31	27	1
Total	407	359	12

**Universal Service Administrative Company 1Q2018 Fund Size
Projections**

IAD will not initiate 36 of the 407 planned audits. The 36 auditees (Contributor Revenue 8, High Cost 7, Lifeline 3, Schools and Libraries 15, and Rural Health Care 3) were selected using a primarily random selection process. Prior to commencing these audits, IAD moved to a risk-based audit selection mechanism and, thus, decided to direct its limited resources to auditees that were selected using risk-based criteria. Consequently, 36 audits included in the Plan were not announced by September 30, 2015. In mid-2015, IAD staff began working with FCC OMD and Wireline Competition Bureau (WCB) staff on the development of a new audit plan with an improved ability to detect and deter non-compliance with program rules. The design of this audit program is intended to reduce the burden on lower risk entities and improve the return on investment in audit. As the plan was finalized in early 2016, announcements began in 4Q2016 and the status of those audits as of 3Q2017 is as follows:

Program	Planned	Completed	In Process
Contributor Revenue	22	14	8
High Cost	51	27	14
Low Income	37	24	12
Schools & Libraries	74	61	7
Rural Health Care	25	20	5
Total	209	146	46

The FY2016 plan was increased by two audits due to whistleblower activity and an FCC request. IAD did not announce 17 of the audits in the plan noted above (High Cost 10, Lifeline 1, and Schools & Libraries 6). Ten High Cost audits related to the *USF/ICC Transformation Order* will be performed by the IAD Corporate Assurance team as an internal operational audit. Those audits will be scheduled during the first half of 2017. Six Schools and Libraries audits were not announced; one due to flooding in Louisiana because the

**Universal Service Administrative Company 1Q2018 Fund Size
Projections**

school was nearly under water and the remaining five audits will be performed under the 2017 audit plan. With regard to Lifeline, one audit was not performed because the carrier is no longer in business and the second audit was not performed at the request of the FCC Office of Inspector General.

Consistent with prior audit plan development, USAC in coordination with FCC OMD and WCB staff worked together to develop the FY 2017 audit plan and the audits are outlined as follows:

Program	Planned	Completed	In Process
Contributor Revenue	20	0	18
High Cost	35	0	17
Low Income	42	0	38
Schools & Libraries	60	1	52
Rural Health Care	3	0	1
Total	160	1	126

As previously reported, the PQA Program has completed five years of testing payments under this directive, and the most recent two years are noted below. Using a statistically drawn sample, each month support mechanism disbursements are selected and reviewed to verify that payments were made at the correct amount in accordance with FCC rules. The table below summarizes the error rates noted and the projected estimated improper payment amounts for each program for Calendar Year 2016 disbursements compared to Calendar Year 2015:

Universal Service Administrative Company 1Q2018 Fund Size Projections

Support Mechanism	2016		2015	
	Improper Payment Rate	Estimated Improper Payment Amount (<i>millions</i>)	Improper Payment Rate	Estimated Improper Payment Amount (<i>millions</i>)
High Cost	0.05%	\$2.5	0.04%	\$1.1
Low Income	21.93%	\$336.4	2.64%	\$36.6
Schools and Libraries	4.34%	\$103.5	5.70%	\$119.3

The PQA Program collects information from program beneficiaries for the purpose of verifying the accuracy of program disbursements requested and received by the beneficiaries. The PQA team performs payment verification on randomly selected beneficiaries over a calendar year. Payments made from the Rural Health Program were not tested over the past two years as the Rural Health Care Program was deemed low risk for Calendar Years 2015 and 2016. Testing of payments for Calendar Year 2017 is estimated to begin in late 4Q2017 with estimated completion during 4Q2018.

3. Improving information technology tools.

USAC has undertaken a systematic review of the capabilities of its current financial systems in order to determine whether additional functionality can be added to improve financial operations, and has made several improvements to its financial systems and is working on other systems enhancement initiatives.

4. Expanding and enhancing outreach and education.

In 3Q2017, USAC conducted extensive one-on-one outreach to 12 carriers participating in the High Cost Program and in-depth outreach to all 50 state public utility commissions. USAC also conducted 13 outreach calls for large stakeholder groups participating in the Schools and Libraries Program. USAC conducted five webinars and four webcasts: one webinar for High Cost, four webinars for Lifeline carriers, and four webcasts for Schools and Libraries applicants and service providers. USAC participated in two

Universal Service Administrative Company 1Q2018 Fund Size Projections

professional meetings involving beneficiary audiences for the High Cost Program and conducted two demonstrations of the High Cost Open Data initiative for the FCC. USAC launched 11 online learning tutorials for the Lifeline Program, seven for the Schools and Libraries Program, and three for the FCC Form 499 filer audience.

FUNDING REQUIREMENTS

HIGH COST SUPPORT MECHANISM

FUNDS RESERVED PURSUANT TO THE *USF/ICC TRANSFORMATION ORDER*

On November 18, 2011, the FCC released the *USF/ICC Transformation Order*.¹⁵ In the Order, the FCC set an annual funding target for the High Cost Support Mechanism of no more than \$4.50 billion annually over the next six years. The Order directed USAC to forecast total High Cost Program demand at no less than \$1.125 billion per quarter beginning with 1Q2012.¹⁶ In the Order, the FCC waived section 54.709(b) of its rules and instructed USAC not to make any prior period adjustments related to High Cost Program support. The Order requires that if actual contributions exceed demand, excess contributions are to be credited to a new Connect America Fund (CAF) reserve account to be used to fund future broadband deployment.¹⁷ If actual High Cost Program demand exceeds the quarterly target of \$1.125 billion, no additional funds will accumulate in the reserve account for that quarter.¹⁸ In addition, the *USF/ICC Transformation Order* states that

the \$4.50 billion budget includes only disbursements of support and does not include administrative expenses or prior period adjustments for support for prior years.¹⁹

In the *USF/ICC Transformation Order*, the Commission instructed USAC to wind down the Corr Wireless reserve account and use \$300 million in the account to fund anticipated commitments in 2012 to recipients of the Mobility Fund Phase I.²⁰ HC11 provides the data for Mobility Fund Phase I for 1Q2018 by State by Study Area. The remaining balance was used to fund Phase I of the CAF for price cap carriers in 2012.²¹ The Commission also instructed USAC not to use the Corr Wireless reserve account to fund inflation adjustments for the Schools and Libraries program for the current 2011 funding year (FY).²² On March 30, 2016, the *Rate-of-Return Reform Order* directed USAC to eliminate the CAF reserve account and transfer the funds to the high-cost account.²³ USAC will credit excess contributions to support the high-cost mechanism to the high-cost account.²⁴ Funds from the high-cost account will be used to reduce the demand to \$1.125 billion in any quarter that would exceed \$1.125 billion.²⁵

available to price cap carriers at the holding company level. The Commission determined the amount available for each carrier in a Public Notice released on April 25, 2012.³²

Carriers had 90 days to accept all, part, or reject the amount available. If a price cap carrier accepts Incremental Support, it is required to deploy broadband to a number of service locations equal to the amount it accepts divided by \$775.³³

On May 22, 2013, the Commission announced that a second round of CAF Phase I – Incremental Support funding will be available to promote expansion of broadband to consumers that lack access.³⁴ The Commission allocated \$300 million for the second round of Phase I support.³⁵ If total demand exceeds \$300 million, the Commission will authorize up to an additional \$185 million in funding.³⁶

On March 14, 2014, the Wireline Competition Bureau issued a Public Notice authorizing \$16.7 million in additional Phase I second round incremental support in response to the modified elections of two carriers, AT&T and Windstream Communications.³⁷ AT&T was authorized to receive \$5.3 million in incremental support in exchange for a commitment to deploy broadband-capable infrastructure to 6,772 locations.³⁸ Additionally, Windstream was authorized to receive \$11.5 million in incremental support in exchange for a commitment to deploy to 13,273 locations.³⁹

CONNECT AMERICA FUND PHASE II

The FCC released an Order on June 10, 2014 adopting rules, among other things, to institute the foundation for the award of Phase II (model-based) support through a competitive bidding process in price cap areas where the price cap carrier declines the offer of model-based support.⁴⁰ The Order also permits price cap carriers that decline model-based support to participate in the competitive bidding process that is expected to be conducted in 2016.⁴¹ On April 29, 2015, the FCC released a Public Notice announcing the offers of model-based Phase II support to price cap carriers to fund voice and broadband-capable networks in their service areas.⁴² The total offer is \$1.675 billion annually, for six calendar years, 2015-2020.⁴³ Next, on June 16, 2015, the Bureau released a Public Notice announcing acceptance by Frontier Communications of model-based support for each of the 28 states it serves.⁴⁴ For states where their model-based support is greater than Phase I Frozen support, Frontier elected to receive the lump sum payment associated with prior months that reflects the difference between Phase II model support and Phase I Frozen support. Finally in August 2015, the Bureau released public notices for Consolidated Communications, AT&T, CenturyTel, Inc. dba CenturyLink, Cincinnati Bell, Fairpoint Communications, Inc., Hawaiian Telecom, Inc., Micronesian, and Windstream Corporation for announcement of acceptance of model-based support.⁴⁵

For 1Q2018, total CAF Phase II projected support is estimated to be \$390.78 million and total annual 2018 CAF Phase II support is estimated to be \$1,563.12 million.

Appendix HC12 provides projected CAF Phase II Support by state by study area for 1Q2018.

CONNECT AMERICA FUND/INTERCARRIER COMPENSATION SUPPORT

In the *USF/ICC Transformation Order*, the FCC adopted a transitional recovery mechanism with an effective date of July 1, 2012 to facilitate incumbent carriers' gradual transition away from intercarrier compensation (ICC) revenues.⁴⁶ Eligible incumbent carriers may receive additional support through this recovery mechanism.

For 1Q2018, total CAF/ICC Support is estimated to be \$102.75 million and total annual 2018 CAF/ICC Support is estimated to be \$410.96 million. Appendix HC10 provides projected CAF/ICC Support by State by Study Area for 1Q2018.

RURAL BROADBAND EXPERIMENTS

On July 11, 2014, the FCC adopted the *Rural Broadband Experiments (RBE) Order* to advance the deployment of voice and broadband networks in high-cost areas and help design the Phase II competitive bidding process and Remote Areas Fund.⁴⁷ The FCC established a budget of \$100 million over ten years for funding experiments in price cap areas that are not served by unsubsidized competitors.⁴⁸ For 1Q2018, total RBE support is estimated to be \$0.83 million and total annual 2018 RBE support is estimated to be \$3.32 million. Appendix HC13 provides projected RBE Support by State by Study Area for

RATE-OF-RETURN CARRIERS

Rate-of-return carriers not affiliated with price cap carriers may continue to receive legacy High Cost Program support and may receive CAF support to offset lost ICC revenues.⁴⁹ On March 30, 2016, the FCC released the *Rate-of-Return Reform Order* setting forth two distinct paths for rate-of-return carriers: (1) voluntary election of model support or (2) support based on existing mechanisms as modified to include broadband.⁵⁰ Furthermore, the Order set a budget of \$2 billion per year and up to an additional \$150 million annually from existing high-cost reserves for the voluntary path to the model.⁵¹ In order to remain within a \$2 billion budget, USAC will apply the FCC Budget Control Mechanism methodology to reduce support for each carrier.⁵² Appendix HC14 provides alternative Connect America Cost Model Support Projected by State by Study Area for 1Q2018. Appendix HC15 provides the rate-of-return budget control projected support amounts due to the budget control mechanism.

Moreover, pursuant to the Order, USAC is required to calculate total support available for distribution to Rate-of-Return carriers. In order to remain within the annual rate of return budget, USAC is required to apply the FCC Budget Control Mechanism methodology to reduce support for carriers subject to high cost loop support (HCLS) (including Safety Net Additive (SNA) and Safety Valve Support (SVS)) and or Connect America Broadband Loops Support (CAF BLS) support.⁵³

HIGH COST LOOP SUPPORT (INCLUDING SAFETY NET ADDITIVE AND SAFETY VALVE SUPPORT)

High Cost Loop (HCL) Support is calculated based on the results of the annual collection of 2012 incumbent local exchange carrier (LEC) loop cost and expense adjustment data that was submitted to the FCC and USAC on October 1, 2013.⁵⁴ Growth in total HCL Support for rural carriers is limited under Section 54.1302 of the Commission's rules to the current level of funding increased yearly by the annual growth in supported rural loops.⁵⁵ The *Rural Task Force (RTF) Order* increased HCL support for rural carriers effective July 1, 2001.⁵⁶

Rural HCL Support for calendar year 2017 will be less than the level of payments for 2016 because of a rural growth factor of negative 1.9301 percent. Rural HCL Support for calendar year 2017, therefore, is capped at \$704.8 million. This capped amount reflects reductions pursuant to the *USF/ICC Transformation Order*, which was adjusted by NECA in the first quarter of 2012 to exclude price cap local exchange carriers and their rate-of-return affiliated study areas.

The *RTF Order* provided SNA Support above the HCL cap for carriers that make significant investment in rural infrastructure in years in which HCL is capped.⁵⁷ To receive support, a rural carrier must show that growth in telecommunications plant in service (TPIS) per loop is at least 14 percent greater than the study area's TPIS per loop in the prior year.⁵⁸ Pursuant to the *USF/ICC Transformation Order*, SNA will be phased down over a two-year

period, and no SNA support will be provided for carriers whose costs are incurred after 2009.⁵⁹ In June 2014, the Commission issued an order allowing carriers that would have qualified for SNA based on increased investment – an increase of at least 14 percent in their total TPIS in 2010 or 2011 – to receive such support.⁶⁰ For 1Q2018, SNA support is phased out, thus there is no projected SNA supported.

For 1Q2018, projected HCL Support is \$125.66 million, which includes \$1.02 million for SVS. Total annual 2018 HCL Support is projected to be \$502.64 million.

Appendix HC05 provides projected monthly HCL Support payments by State by Study Area for 1Q2018. Appendix HC06 displays projected SVS payments by State by Study Area for 1Q2018.

ALASKA PLAN SUPPORT

In the *Alaska Plan Order*, the FCC approved for Alaska rate-of-return carriers to receive frozen support for 10 years and be obligated to offer voice and broadband services at specified speeds to specified number of locations while meeting certain service obligations.⁶¹

Appendix HC04 provides 1Q2018 projections for Alaska Plan Support by State by Study Area. For 1Q2018, projected Alaska Plan Support is \$32.08 million.

CONNECT AMERICA BROADBAND LOOP SUPPORT

Connect America Broadband Loop Support (CAF BLS) replaces what was previously known as interstate common loop support (ICLS).⁶² The FCC made modifications to modernize ICLS rules to provide support in situations where the customer

no longer subscribes to traditional regulated local exchange voice service.⁶³ CAF BLS will provide support for broadband-capable loops, regardless of whether the customer chooses traditional voice, bundle of voice and broadband, or only broadband.⁶⁴

For 1Q2018, CAF BLS is projected to be \$178.02 million, and total annual 2018 CAF BLS is estimated to be \$712.07 million.

Appendix HC08 provides USAC's 1Q2018 projections of CAF BLS by State by Study Area and Appendix HC09 provides USAC's 1Q2018 projections of CAF BLS by State, respectively.

Alternative Connect America Model (A-CAM)

Alternative Connect America Model (A-CAM) allows carriers the option of electing a set amount of monthly support over 10 years, or remaining with a reformed version of legacy support mechanisms with Connect America Fund Broadband Loop Support (CAF-BLS) and High Cost Loop Support (HCL). The initial November 1, 2016 carrier election lead to a high demand for A-CAM support. Thus, additional steps were taken by FCC to address the increased demand.

Those steps included allocating an additional \$50 million annually to the A-CAM budget, and making revised offers to 191 carriers that previously elected A-CAM. The methodology used to calculate the revised offers reduces support by varying percentages based on how many locations in a carrier's eligible service territory still lack access to broadband speeds of 10 megabits per second downstream and 1 megabit per second upstream. Carriers that accept the revised offer of support must agree to meet the terms of the original A-CAM offer if additional support becomes available in 2017 to fund the

original offers. Carriers had until January 19, 2017, to notify the FCC, on a state-by-state basis, whether they elect to receive the revised amount of model-based support.⁶⁵

For 1Q2018, A-CAM is projected to be \$137.11 million, and total annual 2018 A-CAM is estimated to be \$548.44 million.

PRICE CAP CARRIERS

ICLS, on a study area basis to the amount of support each carrier received in 2011.⁶⁶ For 1Q2018, total frozen high cost support for price cap carriers is estimated to be \$36.74 million and total annual 2018 frozen high cost support is estimated to be \$146.96 million. Appendix HC07 provides frozen high cost support for price cap carriers by State by Study Area for 1Q2018.

COMPETITIVE ELIGIBLE TELECOMMUNICATIONS CARRIERS

The *USF/ICC Transformation Order* transitioned existing Competitive Eligible Telecommunications Carriers (CETCs) support to the CAF over a five-year period beginning January 1, 2012.⁶⁷ For the transition, the FCC set each CETC's baseline support at its total 2011 support in a given study area, or an amount equal to 3,000 times the number of reported lines as of year-end 2011, whichever is lower.⁶⁸ That monthly baseline amount was provided from January 1, 2012 to September 30, 2012.⁶⁹ Beginning July 1, 2012, each CETC's support was reduced by 20 percent for each July to June time period.⁷⁰ However, consistent with FCC rules, since Mobility Fund Phase II was not implemented by September

30, 2014, CETC support will not be subject to an additional 20 percent reduction in support beginning July 2014.⁷¹ The implementation date of Mobility Fund Phase II is yet to be determined.

For 1Q2018, total frozen High Cost Program support demand for CETCs is \$122.47 million. In addition, Standing Rock, 1Q2018 High Cost Program support is estimated to be \$0.17 million. The combined High Cost Program support demand totals for CETCs, rural Alaska CETCs, and Standing Rock for 2017 is estimated to be \$122.64 million.

Additionally, Appendix HC03 provides 1Q2018 projections for Standing Rock Support by State by Study Area.

HIGH COST SUPPORT MECHANISM SUMMARY

The 1Q2018 High Cost Support Mechanism funding requirements are projected as follows: \$125.66 million for HCL Support, \$178.02 million for CAF BLS, \$36.74 million for frozen Price Cap Carrier Support, \$390.78 for CAF Phase II, \$0.83 for Rural Broadband Experiments, \$122.64 million for frozen CETC Support,⁷² \$102.75 million for CAF/ICC Support, \$32.08 for Alaska Plan Support, and \$137.11 for A-CAM, resulting in base projected demand of \$1,126.61 million. Demand for Rural Broadband Experiments (\$0.83 million), incremental Alternative Connect America Model support (\$54.90 million), and Connect America Fund Phase II transition support (\$11.36 million) will be paid with cash reserved for this purpose, resulting in total High Cost Support Mechanism projected demand of \$1,059.52.

Financial results for 3Q2017 contributed to an under-funded condition for which this filing proposes to adjust the 1Q2018 funding requirements. The total adjustment to the

1Q2018 funding requirement based on actual results will increase the funding requirement by \$50.07 million. The explanation for the adjustment is described in the following table:

Reason for the Prior Period Adjustment	Adjustment in Millions
The 3Q2017 billings were lower than projected	\$61.98
Interest income was higher than projected for 3Q2017	(0.46)
Bad debt expense was lower than projected	(12.18)
2016 Annual Administrative True-Up	0.73
Total Prior Period Adjustment	\$50.07

The total fund requirement of \$1,059.52 million is adjusted as follows: increased by the prior period adjustments of \$50.07 million, increased by administrative costs of \$12.55 million, and reduced by the projected interest income of \$4.48 million; resulting in a total projected 1Q2018 funding requirement for the High Cost Support Mechanism of \$1,117.66 million.

Appendix M02 provides information on the individual components of the funding requirement for the quarter.

LOW INCOME SUPPORT MECHANISM

LIFELINE SUPPORT

All ETCs must offer Lifeline support to qualified low-income consumers.⁷³ ETCs providing Lifeline support are entitled to receive funding for the waiver of charges and reduced rates provided to qualified low-income subscribers.⁷⁴ In the *Lifeline Reform and Modernization Order*, all non-tribal Lifeline support is set to a flat rate of \$9.25 for all subscribers equally, regardless of whether they subscribe to wireline or wireless Lifeline

service.⁷⁵ The Order, however, does not make any changes to Tier 4 support available to low-income consumers residing on tribal lands.⁷⁶ As established in the *Tribal Order*, Tier Four support makes available each month up to an additional \$25 per low-income subscriber to eligible residents of tribal lands.⁷⁷

For 1Q2018, USAC projects \$313.04 million will be required for Lifeline Support. Based on this projection, total annual 2017 Lifeline Support is estimated to be \$1,252.16 million.

LINK-UP SUPPORT

Effective with the April 2012 support claims, Link-Up support was eliminated for all ETCs on non-tribal lands.⁷⁸ Link-Up support is available for ETCs that provide support on tribal lands, but is limited to those ETCs receiving High Cost Program support.⁷⁹ Eligible ETCs may claim a 100 percent reduction, or up to \$100, of the customary charge for commencing telephone service for a single telecommunication connection at a subscriber's principal place of residence.⁸⁰

For 1Q2018, USAC projects that \$0.06 million will be required for Link-Up support. Based on this projection, total annual 2017 Link-Up support is estimated to be \$0.24 million.

LOW INCOME SUPPORT MECHANISM SUMMARY

The estimated 1Q2018 Low Income Support Mechanism funding requirements are projected as follows: \$313.04 million for Lifeline and \$0.06 million for Link-Up, resulting in total of \$313.10 million.

Financial results of 3Q2017 contribute to an over-funded condition, for which this filing proposes to adjust the 1Q2018 funding requirement. The total adjustment to the 1Q2018 funding requirement based on actual results will decrease the funding needed by \$4.15 million. The explanation for the adjustment is described in the following table:

Reason for the Prior Period Adjustment	Adjustment in Millions
3Q2017 billings were lower than projected.	\$16.09
Low Income Support Mechanism distributions were lower than projected in 3Q2017.	(16.11)
Bad debt expense was lower than anticipated.	(3.10)
Interest income was higher than anticipated.	(0.11)
2016 Annual Administrative Expense True-up	(0.92)
Total Prior Period Adjustment	\$(4.15)

The total fund requirement of \$313.10 million decreased by the prior period adjustment of \$4.15 million, increased for administrative costs of \$14.92 million (including \$5.19 million for USAC’s common costs allocated to the Low Income Support Mechanism), and decreased by allocated projected interest income of \$0.27 million; resulting in a total projected 1Q2018 funding requirement for the Low Income Support Mechanism of \$323.60 million.

RURAL HEALTH CARE SUPPORT MECHANISM

Following is a summary of Rural Health Care (RHC) Support Mechanism commitments and disbursements for FYs 2008 through 2016 as of September 30, 2017. Prior FYs are closed.

FUNDING YEAR 2008

FY 2008 began on July 1, 2008 and ended on June 30, 2009. The window for FY 2008 opened on April 8, 2008. As of September 30, 2017, a total of 3,563 Form 465s were posted and 7,046 funding requests were received.

On September 29, 2006, the FCC released an order establishing a new two-year Rural Health Care Support Mechanism Pilot Program for FYs 2006 and 2007 to cover “up to 85 percent of an applicant’s costs of deploying a dedicated broadband network.”⁸⁵ The application window for the Pilot Program opened on March 8, 2007 and closed on May 7,

2007.⁸⁶ On November 19, 2007, the FCC released an order increasing the number of FYs to three for the Pilot Program and awarding \$417.78 million in support to 69 applications over FYs 2007, 2008 and 2009.⁸⁷ Support under the Pilot Program is capped at \$139.26 million in each of the three FYs. The Commission stated that monies collected in FY 2006 for the Pilot Program should be applied to FY 2007,⁸⁸ resulting in \$54.44 million of funds collected for FY 2006 being reallocated to FY 2007.

As of September 30, 2017, Pilot Program funding commitments have been issued totaling \$14.70 million for FY 2008. Based on information provided by applicants, USAC now estimates FY 2008 Pilot Program demand will be \$14.29 million. In accordance with the instructions in a January 17, 2008 letter from the Chief of the FCC WCB allowing Pilot Program participants to roll forward support not used in one year to a subsequent FY, USAC carried forward funds not used in FY 2008 to FY 2009. USAC has collected \$139.26 million for each of the Pilot Program FYs, thus no further collection is necessary.

As of September 30 2017, Telecommunications (Telecom) Program funding commitments have been issued totaling \$66.66 million. Based on information provided by applicants, USAC estimates FY 2008 Telecom Program demand will be \$66.66 million. The Commission previously authorized collection of \$66.66 for FY 2008.

Cumulative payments to service providers through 3Q2017 are listed in Appendix RH03.

estimates FY 2010 Telecom Program demand will be \$87.39 million. The Commission previously authorized collection of \$87.39 million for FY 2010.

Cumulative payments to service providers through 3Q2017 are listed in Appendix RH09.

FUNDING YEAR 2011

FY 2011 began on July 1, 2011 and ended on June 30, 2012. The window for FY 2011 opened on April 4, 2011. As of September 30, 2017, a total of 4,793 Form 465s were posted and 11,675 funding requests were received.

As of September 30, 2017, Telecom Program funding commitments have been issued totaling \$101.33 million. Based on information provided by applicants, USAC now estimates FY 2011 Telecom Program demand will be \$101.33 million. The Commission previously authorized collection of \$101.33 million for FY 2011.

Cumulative payments to service providers through 3Q2017 are listed in Appendix RH12.

FUNDING YEAR 2012

FY 2012 began on July 1, 2012 and ended on June 30, 2013. The window for FY 2012 opened on April 16, 2012. As of September 30, 2017, a total of 5,334 Form 465s were posted and 11,815 funding requests were received.

As of September 30, 2017, Telecom Program funding commitments have been issued totaling \$118.23 million. Based on information provided by applicants, USAC now estimates FY 2012 Telecom Program demand will be \$118.23 million. The Commission previously authorized collection of \$118.23 million for FY 2012.

Cumulative payments to service providers through 3Q2017 are listed in Appendix RH15.

collection of \$102.18 million for FY 2014.

Authorized funding by applicant during 3Q2017 and cumulative payments to service providers through 3Q2017 are listed in Appendices RH20 and RH21, respectively.

FUNDING YEAR 2015

FY 2015 began on July 1, 2015 and ended on June 30, 2016. As of September 30, 2017, a total of 4,504 Form 465s were posted and 7,481 funding requests were received.

As of September 30, 2017, Telecom Program funding commitments have been issued totaling \$189.86 million. Based on information provided by applicants, USAC estimates FY 2015 Telecom Program demand will be \$189.86 million. The Commission previously authorized collection of \$189.86 million for FY 2015.

As of September 30, 2017, HCF Program commitments have been issued totaling \$117.81 million. Based on information provided by applicants, USAC now estimates FY 2015 HCF Program demand will be \$117.81 million. The commission previously authorized collection of \$117.81 million for FY 2015.

Authorized funding by applicant during 3Q2017 and cumulative payments to service providers through 3Q2017 are listed in Appendices RH23 and RH24, respectively.

FUNDING YEAR 2016

FY 2016 began on July 1, 2016 and ended on June 30, 2017. As of September 30, 2017, a total of 4,747 Form 465s were posted and 6,410 funding requests were received.

As of September 30, 2017, Telecom Program funding commitments have been issued totaling \$228.95 million. Based on information provided by applicants, USAC estimates FY 2016 Telecom Program demand will be \$228.95 million. The Commission previously authorized collection of \$228.95 million for FY 2016.

Universal Service Administrative Company 1Q2018 Fund Size Projections

As of September 30, 2017, HCF Program commitments have been issued totaling \$154.14 million. Based on information provided by applicants, USAC now estimates FY 2016 HCF Program demand will be \$154.14 million. The Commission previously authorized collection of \$154.14 million for FY 2016.

Funding commitments made during 3Q2017 are included in Appendix RH25. Authorized funding by applicant during 3Q2017 and cumulative payments to service providers through 3Q2017 are listed in Appendices RH26 and RH27, respectively.

FUNDING YEAR 2017

FY 2017 will begin on July 1, 2017 and will end on June 30, 2018. As of September 30, 2017, a total of 5,315 Form 465s were posted and 7,330 funding requests were received.

As of September 30, 2017, initial demand for FY 2017 exceeds the \$400 million program cap. USAC recommends the Commission collect \$100 million for FY 2017 in 1Q2018.

RURAL HEALTH CARE SUPPORT MECHANISM SUMMARY

The estimated 1Q2018 Rural Health Care Support Mechanism demand requirement is \$100.00 million, which includes amounts for the Telecom Program, as well as the Healthcare Connect Fund (HCF).

The FCC has directed USAC to use uncommitted Pilot Program dollars for the demand associated with the HCF. As of September 30, 2017, USAC estimates that there will be no uncommitted Pilot Program dollars available to HCF in 1Q2018.

Results for 3rd Quarter 2017 (3Q2017) contribute to an over-funded condition. The total prior period adjustment to the 1Q2018 funding requirement based on 3Q2017 actual results will decrease the funding requirement by \$3.87 million. The explanation for the adjustment is provided below:

**Universal Service Administrative Company 1Q2018 Fund Size
Projections**

Reason for the Prior Period Adjustment	Adjustment in Millions
3Q2017 billings were higher than projected	(\$1.76)
Interest income was higher than projected 3Q2017	(0.09)
Bad debt expense was higher than anticipated	0.01
2016 Annual Administrative true-up	(2.03)
Total Prior Period Adjustment	(\$3.87)

The total fund requirement of \$100.00 million is adjusted as follows: decreased by the prior period adjustment of \$3.87 million, and reduced by projected interest income of \$1.02 million; resulting in a total projected 1Q2018 funding requirement for the Rural Health Care Support Mechanism of \$95.11 million. Because the demand has reached the \$400 million cap, administrative expense must be paid within the \$400 million program cap.

SCHOOLS AND LIBRARIES SUPPORT MECHANISM

Following is a summary of Schools and Libraries Support Mechanism net commitments⁸⁹ and net authorized for payment⁹⁰ by FY as of September 30, 2017.

SCHOOLS AND LIBRARIES SUPPORT MECHANISM SUMMARY

In a series of actions from December 1999 through December 2002, the Commission used a net total of \$477.16 million of undisbursed FY 1998 Schools and Libraries Support Mechanism funds to reduce USF collection requirements. Consistent with the Commission's direction in the *Schools and Libraries First Report and Order*, a total of \$852.12 million of undisbursed FYs 1999 and 2000 collections were used to stabilize USF

contributions and offset collections for 3rd Quarter 2002 (3Q2002), 4th Quarter 2002 (4Q2002), and 1st Quarter 2003 (1Q2003).⁹¹

On October 1, 2004, as required by the FCC, USAC changed the accounting methodology for the USF to generally accepted accounting principles for federal agencies.⁹² Commission staff subsequently determined that Funding Commitment Decision Letters (FCDLs) for the Schools and Libraries Support Mechanism are to be treated as “obligations” for federal budgetary accounting purposes and subject to the requirements of the Anti-deficiency Act (ADA).⁹³ The ADA generally requires that sufficient unobligated resources be available before an obligation can be incurred. Congress exempted the USF from the requirements of the ADA through December 31, 2017.⁹⁴

To reduce the USF cash reserve that has accumulated primarily because the structure of the program necessarily results in significant time lags between the commitments and actual disbursements while at the same time retaining the ability of the USF to satisfy all outstanding commitments based on historic disbursement patterns, the Commission applied

a total of \$550 million of the undisbursed USF balance from prior years against Schools and Libraries Support Mechanism demand in 2004. The Commission applied \$200 million of the cash balance in both Second Quarter and Third Quarter 2004, and \$150 million in Fourth Quarter 2004.⁹⁵

The Commission subsequently authorized the recovery by adjusting subsequent funding years for these changes as follows: 2010: \$140M; 2011: \$250M; 2012: \$40M; and 2013: \$120M.⁹⁶

In the *Schools and Libraries Third Report and Order*, the Commission amended its rules to allow unused funds from prior FYs to be carried forward on an annual basis in the second quarter of each calendar year for use in the next full FY.⁹⁷ The Commission required USAC to file quarterly estimates of unused funds from prior FYs in submitting its projection of Schools and Libraries Support Mechanism demand for the upcoming quarter. The Commission modified the schedule to implement the process for FY 2003 and directed USAC to carry-forward \$420 million of unused prior year funds for use in FY 2003.⁹⁸ In accordance with the *Schools and Libraries Third Report and Order*, the Commission announced

Universal Service Administrative Company 1Q2018 Fund Size Projections

On May 6, 2015, USAC submitted an estimate of demand for the E-rate program for FY 2015 of \$3.92 billion, which includes estimated demand for Category One services (telecommunications, telecommunications services and Internet access) of \$2.255 billion and of \$1.665 billion for category two services (internal connections, basic maintenance of internal connections and managed internal broadband services).

On May 8, 2015, the FCC authorized USAC to carry-forward \$1,575 million in unused funds from prior years to fund FY 2015 disbursements up to the \$3.92 billion demand. The funds were carried-forward from FYs 1998, 1999, 2000, 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012 and 2013 in the amount of \$4.99 million; \$8.44 million; \$7.70 million; \$27.70 million; \$15.20 million; \$43.83 million; \$20.95 million; \$18.62 million; \$31.80 million; \$19.49 million; \$18.46 million; \$70.37 million; \$378.57 million; \$595.81 million; \$295.12 million; and \$18 million, respectively.

On June 6, 2016, USAC submitted an estimate of demand for the E-rate program for FY 2016 (July 1, 2016 to September 30, 2017) of \$3.609 billion, which includes estimated demand for category one services (i.e., telecommunications, telecommunications services and Internet access) of \$2.330 billion and of \$1.279 billion for category two services (i.e., internal connections, basic maintenance of internal connections and managed internal broadband services).

On June 8, 2016, the FCC authorized USAC to carry forward \$1,900 million in unused funds from prior years to fund FY 2016 disbursements up to the \$3.609 billion demand. The funds were carried-forward from FYs 2004, 2006, 2008, 2010, 2011, 2012, 2013, 2014 and 2015 in the amount of \$1.69 million; \$2.00 million; \$7.00 million; \$4.31 million; \$17.00 million; \$540.00 million; \$850.00 million; \$290 million; and \$188.00 million, respectively.

Universal Service Administrative Company 1Q2018 Fund Size Projections

The FCC directed USAC to fully fund eligible category one services under the new cap. The FCC also directed USAC to fully fund eligible Category Two services, first using the unused \$1.90 billion in E-rate funds from prior years, and then using any additional funds needed under the new cap to fully meet demand.

On May 24, 2017, the FCC authorized USAC to carry forward \$1,200.24 million to Funding Year 2017 from prior FYs as follows: 2014: \$215.04 million; 2015: \$561.88 million; and 2016: \$423.32 million.

The FCC directed USAC to fully fund eligible category one and category two requests, using \$1.2 billion in E-rate funds unused from previous years, and any additional funds needed under the current cap to fully meet demand for such services. The following sections provide information regarding the use of funds for each FY, including adjustments made by the Commission and projections of unused funds as required by Commission rules.

FY 1998 True-Up

As of September 30, 2017, \$1,399.07 million of Funding Year 1998 support has been disbursed. The Commission, in a series of actions, has directed USAC to move outstanding contingency funds to subsequent years in an effort to utilize unused funds. On April 17, 2017,¹¹⁸ the Commission directed USAC to reserve 100% for pending appeals. Given these requirements, USAC estimates that \$0.04 million of Funding Year 1998 funds are available to carry-forward. The estimated Funding Year 1998 balance is based on the following:

FY 2013 True-Up

As of September 30, 2017, \$1,749.74 million of FY 2013 support had been authorized for disbursement. The Commission in a series of actions has directed USAC to move outstanding contingency funds to subsequent years in an effort to utilize unused funds. On April 17, 2017, the Commission directed USAC to reserve 100% for pending appeals. USAC's projection of remaining FY 2013 funds includes an estimate to pay additional disbursements on committed but undisbursed funding requests, a reserve for pending applications, and a reserve for appeals. Given these requirements, USAC estimates that an additional \$10.37 million may be required for FY 2013 and no FY 2013 funds are available to carry-forward. The estimated remaining FY 2013 balance is based on the following:

1Q2018 Demand Estimate and Contribution Requirement

Funding Year 2017 began on July 1, 2017. The funding cap for FY 2017 is \$3.990 billion. This reflects a 1.3 percent inflation-adjusted increase in the \$3.939 billion cap from FY 2016. The filing window for FY 2017 closed on May 11, 2017. Based on applications received within the window, USAC estimates demand for FY 2017 will be \$3,146.53 million (net of projected post window close adjustments).¹¹⁹ Based on the estimated demand of \$3,146.53 million, and sufficient funds available for carry forward that can be allocated to FY 2017, the collections requirement for FY 2017 is \$1,946.29 million. The 3Q2017 collection of \$486.57 million and 4Q2017 collection of \$486.57 million reduces the collection requirement to \$973.15 million. The 1Q2018 portion of the collection requirement is \$486.57 million and will be included as net demand in the 1Q2018 demand filing.

¹¹⁹ See May 17, 2017 Letter to Kris Monteith from Craig Davis in the Matter of Schools and Libraries Universal Service Support Mechanism, CC Docket No. 02-6, Estimate of Demand for Funding Year 2017 (in which USAC reported total gross demand of \$3.2 billion).

**Universal Service Administrative Company 1Q2018 Fund Size
Projections**

The results of 3Q2017 contributed to an under-funded condition for which this filing proposes to adjust the 1Q2018 funding requirements. The total adjustment to the 1Q2018 funding requirement based on actual results will increase the funding requirement by \$38.04 million. The explanation for the adjustment is provided in the following table:

Reason for the Prior Period Adjustment	Adjustment in Millions
3Q2017 billings were lower than projected	\$34.89
Interest earned was higher than projected	(\$1.09)
Bad debt expense was lower than anticipated	(\$5.44)
2016 Annual Administrative Expense True-up	\$9.68
Total Prior Period Adjustment	\$38.04

The net fund requirement of \$486.57 is adjusted as follows: increased by the prior period adjustments of \$38.04 million, increased by \$30.06 million for administrative expenses (including allocated administrative expenses of \$11.84 million for USAC’s common costs allocated to the Schools and Libraries Support Mechanism), and reduced by the projected interest income of \$9.56 million; resulting in a total projected 1Q2018 funding requirement for the Schools and Libraries Support Mechanism of \$545.11 million.

CONTRIBUTION BASE

USAC collects quarterly interstate and international revenue information from carriers on FCC Form 499-Q four times each year.¹²⁰ USAC uses this information to determine aggregate projected revenue collections, which will be filed with the Commission

¹²⁰ See 47 C.F.R. § 54.711(a).

Universal Service Administrative Company 1Q2018 Fund Size Projections

on March 2, May 31, August 30, and November 30.¹²¹ Based on these filings, the Commission establishes the contribution factor for the upcoming quarter.¹²²

The quarterly USF contribution factor established by the Commission is derived from projections of support mechanism demand calculated by USAC and projected collected revenue submitted by USF contributors on FCC Form 499-Q and aggregated by USAC. The total USF funding requirement is based on many inputs and is the result of the manner in which the support mechanisms operate pursuant to Commission rules. Inputs include actual support mechanism demand, which changes quarterly, adjustments resulting from events that occur in prior periods but are reported to USAC in the current period, and reconciliation of projections from prior periods to actual results reported by USF contributors and support mechanism beneficiaries (i.e., prior period adjustments). Other inputs include USAC administrative expenses and capital expenditures, and the impact of interest income earned on USF funds USAC invests in United States Treasury securities. The USF contribution base is different each quarter due to changes in carrier revenue projections, which among other things are subject to changing business cycles, and changes to requirements concerning the revenue to which the USF assessment applies (e.g., adding or subtracting certain types of services to the contribution base due to rule changes or other Commission activity). Because of the combined influence of these many factors, nearly all of which change each quarter based on the manner in which the Commission rules operate and the programs are administered, the quarterly contribution factor established by the Commission derived from these USAC-submitted inputs can fluctuate substantially from

¹²¹ See 47 C.F.R. § 54.709(a)(3). The FCC Form 499-Q includes a box for each of the quarterly filing submissions. Carriers check the appropriate box to indicate the quarter for which revenue information is being reported. See also 47 C.F.R. §§ 54.706, 54.708, 54.711, 54.713 (discussing contributor reporting requirements).

quarter to quarter. Thus, comparisons to preceding or prior year quarters should be made with caution and predicting trends based on such comparisons may not provide a basis for meaningful analysis.

USAC invoices and receives contributions from more than 3,000 telecommunications companies each month. Interstate telecommunications service providers are required to complete the 499-Q form, reporting January to March 2018 projected revenue information, and return it to USAC by November 1, 2017. USAC continues to assist the Commission in its USF collection enforcement efforts, including providing documentation on a quarterly basis to assist the Commission in issuing Notices of Apparent Liability (NALs) and forfeiture orders against delinquent contributors and companies failing to file required forms. Pursuant to a directive issued by the FCC on March 27, 2012, USAC transfers monies that are 90 days delinquent to the U.S. Treasury after USAC has provided the delinquent carrier with the notice required under FCC and Debt Collection Improvement Act (DCIA) requirements.

USAC implemented the Red Light Rule on November 1, 2004 for contributor debts to the USF.¹²³ If a contributor is delinquent to the USF, USAC performs administrative offsets to resolve the delinquency by netting any pending service provider disbursements where the Service Provider Identification Number (SPIN) shares the same Taxpayer Identification Number (TIN) as the delinquent contributor. If an entity is delinquent on a debt owed to the Commission or the Telecommunications Relay Service, North American Numbering Plan or Local Portability funds, USAC places administrative holds on any disbursements for SPINs that share the same TIN until the Commission provides

information stating that the debt has been satisfied. USAC continues to work closely with the Commission and stakeholders affected by the Red Light Rule implementation.

AUTHORIZATION TO FILE WITH THE COMMISSION

At their October 23, 2017 and October 24, 2017 meetings, USAC's High Cost & Low Income, Rural Health Care and Schools & Libraries Committees adopted resolutions authorizing USAC staff to file with the Commission the 1Q2018 projected support mechanism funding requirements described herein. At its October 24, 2017 meeting, the USAC Board of Directors adopted a resolution authorizing the inclusion of the projected 1Q2018 administrative expenses in this report to the Commission.

Respectfully submitted,
