FEDERAL UNIVERSAL SERVICE SUPPORT MECHANISMS FUND SIZE PROJECTIONS FOR FIRST QUARTER 2020

INTRODUCTION

The Universal Service Administrative Company (USAC) hereby submits the federal Universal Service Support Mechanisms fund size and administrative cost projections for the first quarter of calendar year 2020 (1Q2020), in accordance with Section 54.709 of the Federal Communications Commission's (FCC or Commission) rules.¹

USAC is the not-for-profit corporation responsible for administering the federal Universal Service Fund (USF) and the following Universal Service Support Mechanisms (also referred to as "Support Mechanisms" or "Programs"): High Cost, Low Income, Rural Health Care, and Schools and Libraries.² USAC also performs the billing, collection, and disbursement functions for the Support Mechanisms.³

Upon approval of the quarterly funding requirements for the Support Mechanisms, the projected administrative expenses, and the submission of the contribution base amount, the Commission will establish a quarterly contribution factor. USAC will bill USF contributors on a monthly basis for their individual obligations based on the approved contribution factor, collect amounts owed from contributors, and distribute funds to eligible recipients based on the schedules filed herein.⁴

² 47 C.F.R. § 54.701.

⁴ See 47 C.F.R. §§ 54.709(a)(3), 54.201, 54.203, 54.301-54.307, 54.407, 54.413, 54.515.

ADMINISTRATIVE EXPENSES AND INTEREST INCOME PROJECTION

ADMINISTRATIVE EXPENSES

Section 54.709(a)(3) of the Commission's rules requires USAC to submit its projected quarterly budget at least 60 days prior to the start of the quarter.⁵ USAC includes any costs that can be directly attributed to the High Cost, Low Income, Rural Health Care, and Schools and Libraries Support Mechanisms in the projected administrative expenditures of each mechanism. USAC's remaining joint and common costs, including costs associated with the billing, collection, and disbursement of funds, are included in the projected administrative expenditures of the respective support mechanisms based on USAC's methodology for allocating costs submitted to the Commission.⁶

USAC projects a consolidated budget of \$59.10 million for 1Q2020. Direct costs for all support mechanisms total \$35.19 million and are listed for each mechanism in the chart provided below. Joint and common costs (including billing, collection, and disbursement activities) total \$23.91 million and are listed in the chart below based on the allocation methodology on file with the Commission.

⁵ 47 C.F.R. § 54.709(a)(3).

⁶ On January 1, 2006, USAC implemented a revised methodology for allocating joint and common costs that was filed with the Commission on October 3, 2005. *See* Letter from D. Scott Barash, USAC, to Marlene Dortch, FCC, CC Docket Nos. 97-21 *et al.* (Oct. 3, 2005) (explaining revisions to USAC's method for allocating joint and common administrative costs among the four Universal Service Support Mechanisms).

1Q2020 Administrative Expenses (in millions) - Budgeted

USF Mechanism	Direct Costs	USAC Common Costs	Total
High Cost	\$7.75	\$8.80	\$16.55
Low Income	\$12.09	\$4.97	\$17.06
Rural Health Care	\$3.19	\$1.81	\$5.00
Schools & Libraries	\$12.16	\$8.33	\$20.49
Total	\$35.19	\$23.91	\$59.10

Appendix M01 provides USAC's administrative expenditures budget for 1Q2020.

FUND ACTIVITY

Appendix M02 provides the fund size projections for 1Q2020. Appendices M03 and M04 provide 2019 year-to-date statements of fund activity on a cash and accrual basis, respectively.

EFFORTS TO PREVENT AND REDUCE IMPROPER PAYMENTS

USAC has established a foundation of processes, systems, procedures, and outreach activities to prevent or reduce "improper" payments as defined by the Improper Payments Information Act of 2002 (Pub. L. No. 107-300). USAC initiated efforts, consistent with its February 28, 2008 letter to the Commission, to identify additional measures to prevent or reduce potential improper payments and to allocate the additional resources needed to implement such measures. Commission staff directed USAC to report its progress in implementing proposed actions to prevent or reduce improper payments and to project the anticipated administrative costs of such actions on a quarterly basis.

The steps initiated by USAC include additional oversight and managerial controls,

⁸ See Letter from D. Scott Barash, Acting Chief Executive Officer, USAC, to Anthony Dale, FCC Managing Director (Feb. 28, 2008) (concerning suggested additional steps to reduce or prevent improper payments).

strengthened audit and investigative techniques, improved information technology tools, and more effective use of outreach resources. In 1Q2020, USAC will continue efforts identified and initiated during the previous years. These efforts include, but are not limited to:

1. Assessing and strengthening USAC's internal controls

USAC's Internal Controls team is responsible for testing key controls of USAC's processes. USAC's Enterprise Portfolio Management Office (EPMO) tracks the completion of the remediation activities and corrective action plans for all control deficiencies developed in response to internal and external testing results. EPMO established a framework for an Enterprise Risk Management (ERM) program at USAC. The EPMO, Internal Controls, and Audit and Assurance Division (AAD) groups meet with USAC Leadership quarterly through the Risk Management Council to report on risk-related functions in the enterprise.

2. Strengthening audit and investigative techniques

The FCC's Office of Managing Director (OMD) directed USAC to implement an assessment program to determine the rate of improper payments made to universal service support mechanism beneficiaries to support the FCC's reporting requirements under the Improper Payments Elimination and Recovery Improvement Act (IPERIA)¹⁰ and to assess universal service support mechanism beneficiary compliance with FCC regulations.¹¹ USAC successfully implemented an assessment program, known as the Payment Quality Assurance (PQA) Program, in August 2010.

The FCC also directed USAC to establish a comprehensive support mechanism

4

¹⁰ See Improper Payments Elimination and Recovery Improvement Act of 2012, Pub L. No. 112-248, 126 Stat. 2390 (2013). On January 10, 2013, the Improper Payment Elimination and Recovery Improvement Act (IPERIA) was signed into law.
¹¹ Letter from Steven Van Roekel, FCC Managing Director, to Scott Barash, USAC Acting Chief Executive Officer (Feb. 12, 2010) (discussing the implementation of the Improper Payments Information Act of 2002 (IPIA) assessment program and companion audit program). Although not subject to IPERIA, USF contributor compliance with FCC regulations is assessed as part of the Beneficiary and Contributor Audit Program (BCAP).

Beneficiary and USF contributor audit program, which is known as BCAP ("Beneficiary and Contributor Audit Program"). The BCAP plans are designed to:

- Assess beneficiaries' and contributors' compliance with FCC Rules;
- Identify correct contribution obligations (for contributor audits);
- Identify overpayments that must be recaptured (for beneficiary audits);
- Deter waste, fraud and abuse; and
- Identify FCC Rules that may require the attention of USAC or FCC management.

In 2013, AAD and OMD staff developed an audit plan for fiscal years 2014 and 2015 that was designed to select entities at random with the goal of concentrating on entities receiving larger federal USF disbursements. In 2015, AAD, OMD and the FCC's Wireline Competition Bureau (WCB) developed audit plans for fiscal years 2016 to 2018 that were designed to focus audit resources on USF participants with the highest risk of noncompliance with FCC rules. In 2018, AAD, OMD and WCB developed an audit plan for fiscal year 2019 that incorporates a hybrid approach for selecting beneficiaries and contributors for audit. The selection methodology is based on a combination of high risk factors, high dollar, random selection and targeted entities selected as a result of whistleblower allegations or FCC request.

The status of all audits in process as of September 30, 2019 is summarized in the table below.

Audit Status As of September 30, 2019				
Program	Announced	Fieldwork	Reporting	Total
Contributor Revenue	0	7	2	9
High Cost	1	7	15	23
Low Income	0	9	8	17

As noted above, USAC implemented the PQA Program in 2010 to test improper payments and compliance with FCC regulations. The testing results for the two most recent years are noted below. The testing results for calendar year 2018 will be provided in the 2Q2020 fund size projection filing. Using a statistically drawn sample, support mechanism disbursements are selected each month and reviewed to verify that payments were made at the correct amount in accordance with FCC rules. The table below summarizes the error rates noted and the improper payment amounts for each program for calendar year 2017 and 2016 disbursements:

	2017		2017 2016		016
		Estimated		Estimated	
	Estimated	Improper	Estimated	Improper	
	Improper	Payment	Improper	Payment	
Support	Payment	Amount	Payment	Amount

Schools & Libraries	2.59%	\$67.99	4.34%	\$103.51	

Payments made from the Rural Health Care Program were not tested as the Rural Health Care Program was deemed low risk for calendar years 2017 and 2016; however, the Rural Health Care Program is subject to PQA testing for calendar year 2018. The sample size and status of PQA assessments in process as of September 30, 2019 for calendar year 2018 disbursements are summarized in the table below.

PQA Status (Calendar Year 2018 Disbursements) As of September 30, 2019

3. <u>Improving information technology tools</u>

USAC has undertaken a systematic review of the capabilities of its current financial systems to determine whether additional functionality can be added to improve financial operations, and has made several improvements to its financial systems and is working on other systems enhancement initiatives.

4. Expanding and enhancing outreach and education

In the last quarter, USAC conducted extensive outreach, including:

- The High Cost Program focused on granting state and tribal access to

 FCC Form 481 data, helping state utility commissions and self-certifying carriers
 navigate the annual deadline for certifying carriers eligible to receive High Cost
 support, communicating new High Cost Universal Broadband (HUBB)
 functionality, gearing up for extensive user testing of the new Performance
 Measures Module (PMM) system being developed to collect network speed and
 latency testing data, and preparing web content about the new Rate of Return
 reform order. All of these activities involved extensive email communication and
 multiple calls and meetings with state regulators, carriers, and industry trade
 groups;
- The Rural Health Care Program conducted outreach to program participants regarding the release of FCC 19-78, the launch of the first Open Data set, My

Portal enhancements, and Consortia Annual Reports, and debuted the new "What is the RHC Program?" video on the website;

- Schools and Libraries Program outreach included monthly and mid-month stakeholder calls to participants and tribal audiences, conducting two webinars for applicant and service provider audiences, completing the 2019 E-rate Service Provider Training in DC, and beginning the 2019 E-rate Applicant Training series in DC and Texas;
- The Lifeline Program launched the connection to the Centers for Medicare and Medicaid Services (CMS), making automated Medicaid participation verification available nationwide and in Puerto Rico and the Virgin Islands. Lifeline also deployed the carrier eligibility and status check APIs into the pre-production environment to allow carriers to begin testing the functionality; and
- The Contributors team led training sessions and office hour sessions for FCC Form 499 filers during the 2019 E-Rate Service Provider Trainings in Washington, DC. They also conducted outreach informing service providers to update their FCC Form 498 with the business activity type in accordance with the FCC's Data Act. In addition, the team conducted outreach to remind filers to submit the FCC Form 499-Q and provided general guidance for filers through the quarterly newsletter and webinars.

USAC conducted 21 webinars: three monthly webinars for Lifeline carriers, four webinars for the National Verifier service providers, four recertification specific webinars, two webinars for consumer advocates on the National Verifier, two webinars for Schools and Libraries audiences, four webinars for Rural Health Care

participants, and two webinars for Contributors. For the Lifeline Program, USAC conducted two Representative Accountability Database (RAD) office hours sessions and one Carrier API office hours session. USAC conducted two in-person trainings and two in-person feedback sessions for service providers participating in the RHC Program, five in-person trainings for participants in the E-rate Program, two in-person trainings for FCC Form 499 filers, and one for High Cost participants. Lastly, members of the RHC team and leadership traveled to Alaska for an in-depth training for applicants.

HIGH COST SUPPORT MECHANISM

Appendix HC01 provides projected High Cost Support by State by Study Area for 1Q2020. HC01 also provides the projected amount of individual company support, and projected per-month amounts for the components of High Cost support that each Eligible Telecommunications Carrier (ETC)¹² may be eligible to receive. HC02 provides the total projected amount of annualized High Cost Support for 1Q2020 for each state.

CONNECT AMERICA FUND PHASE II

The FCC released an Order on June 10, 2014 adopting rules, among other things, to institute the foundation for the award of Phase II (model-based) support through a competitive bidding process in price cap areas where the price cap carrier declines the offer of model-based support.¹³ The Order also permits price cap carriers that decline model-

based support to participate in the 2016 competitive bidding process. ¹⁴ On April 29, 2015, the FCC released a Public Notice announcing the offers of model-based Phase II support to price cap carriers to fund voice and broadband-capable networks in their service areas. ¹⁵ The total offer is \$1.675 billion annually, for six calendar years, 2015-2020. ¹⁶ Next, on June 16, 2015, the Bureau released a Public Notice announcing acceptance by Frontier Communications of model-based support for each of the 28 states it serves. ¹⁷ For states where their model-based support is greater than Phase I Frozen support, Frontier elected to receive the lump sum payment associated with prior months that reflects the difference between Phase II model support and Phase I Frozen support. Finally in August 2015, the Bureau released public notices for Consolidated Communications, AT&T, CenturyTel, Inc. dba CenturyLink, Cincinnati Bell, Fairpoint Communications, Inc., Hawaiian Telecom, Inc., Micronesian, and Windstream Corporation for announcement of acceptance of model-based support. ¹⁸

For 1Q2020, CAF Phase II projected support is estimated to be \$379.42 million. Appendix HC12 provides projected CAF Phase II Support by State by Study Area for 1Q2020.

CONNECT AMERICA FUND PHASE II AUCTION

The Wireline Competition Bureau released a Public Notice on August 28, 2018 announcing the winners of the Connect America Find Phase II auction. 19

For 1Q2020, total CAF Phase II auction projected support is estimated to be \$38.70 million, \$28.83 is reflected by study area, and for \$9.87 data is not yet available by study area code yet. Appendix HC17 provides projected CAF Phase II Auction Support by State by Study Area for 1Q2020.

CONNECT AMERICA FUND/INTERCARRIER COMPENSATION SUPPORT

In the *USF/ICC Transformation Order*, the FCC adopted a transitional recovery mechanism with an effective date of July 1, 2012 to facilitate incumbent carriers' gradual transition away from intercarrier compensation (ICC) revenues.²⁰ Eligible incumbent carriers may receive additional support through this recovery mechanism.

For 1Q2020, total CAF/ICC Support is estimated to be \$98.95 million.

Appendix HC10 provides projected CAF/ICC Support by State by Study Area for 1Q2020.

RURAL BROADBAND EXPERIMENTS

On July 11, 2014, the FCC adopted the *Rural Broadband Experiments* (RBE) *Order* to advance the deployment of voice and broadband networks in high-cost areas and help design the Phase II competitive bidding process and Remote Areas Fund.²¹ The FCC established a budget of \$100 million over ten years for funding experiments in price cap areas that are not served by unsubsidized competitors.²²

LOW INCOME SUPPORT MECHANISM

LIFELINE SUPPORT

ETCs providing Lifeline support are entitled to receive funding for the waiver of charges and reduced rates provided to qualified low-income subscribers. ⁴⁴ In the *Lifeline* Reform Order, all non-tribal Lifeline support was set to a flat rate of \$9.25 for all subscribers. ⁴⁵ As established in the *Tribal Order*, tribal support makes available each month up to an additional \$25 per low-income subscriber to eligible residents of tribal lands. ⁴⁶ The 2016

On August 31, 2000, the FCC stayed the implementation of the federal Lifeline and Link-up rule amendments only to the extent that they apply to qualifying low-income consumers living near reservations.

Lifeline Order extended Lifeline support to broadband services and adopted a phase-down of support for voice-only service beginning in 2019.⁴⁷

For 1Q2020, USAC projects \$204.37 million will be required for Lifeline support.

LINK-UP SUPPORT

Link-Up support is available for ETCs that provide support on tribal lands, but is limited to those ETCs receiving High Cost Program support. 48 ETCs may claim a 100 percent reduction up to \$100 of the customary charge for commencing telephone service for a single telecommunication connection at a subscriber's principal place of residence.⁴⁹

For 1Q2020, USAC projects that \$0.06 million will be required for Link-Up support.

LOW INCOME SUPPORT MECHANISM SUMMARY

The estimated 1Q2020 Low Income Support Mechanism funding requirements are projected as follows: \$204.37 million for Lifeline and \$0.06 million for Link-Up, resulting in total of \$204.43 million.

The total fund requirement of \$204.43 million is adjusted as follows: decreased by prior period adjustment of \$46.40 million⁵⁰ and increased for administrative costs of \$17.06 million; resulting in a total projected 1Q2020 funding requirement for the Low Income Support Mechanism of \$175.09 million.

⁵⁷ 2018 Rural Health Care Program Funding Cap Order, para. 23, note 75.

FUNDING YEAR 2019

On March 8, 2019, the Commission announced a funding cap for Funding Year 2019 of \$593.78 million. ⁵⁸ On June 10, 2019, the Commission announced a revised funding cap for Funding Year 2019 of \$594.07 million. ⁵⁹ This reflects a 2.2 percent inflation-adjusted increase in the \$581.28 million cap from Funding Year 2018. ⁶⁰ Funding Year 2019 began on July 1, 2019 and will end on June 30, 2020. The filing window for Funding Year 2019 closed on June 30, 2019. ⁶¹

In its 3Q2019 demand filing, USAC projected that a total of \$83.22 million in unused funds from prior funding years would be available to carry-forward to Funding Year 2019 and future funding years as follows:

Funding Year	Amounts in Millions 62, 63
2009	\$0.57

⁶¹ The filing window deadline was extended to June 30, 2019 for health care providers that: (1) filed FY 2018 multi-year and upfront payment funding requests; and (2) did not receive a funding decision on their FY 2018 funding request from USAC by the release date of FCC 19-45. The filing window deadline was May 31, 2019 for all other filers. See Rural Health Care Support Mechanism, WC Docket No. 02-60, Order, FCC 19-45 (2019).

⁶² Carry forward amounts in older funding years are lower because dollars were previously released.

⁶³ The projected amount to carry-forward is based on funds available as of March 31, 2019. In preceding tables, the estimated remaining balances for funding years are based on funds available as of September 30, 2019 after applying unused funds announced in the Rural Health Care June 2019 Public Notice.

For Funding Year 2019, USAC will collect an amount equal to the Rural Health Care Funding Cap of \$594.07 million. This amount is inclusive of administrative costs.

FCC DECISIONS AND UNUSED FUNDS

In a series of actions from December 1999 through December 2002, the Commission used a net total of \$477.16 million of undisbursed Funding Year 1998 Schools and Libraries Support Mechanism funds to reduce USF collection requirements. Consistent with the Commission's direction in the *Schools and Libraries First Report and Order*, a total of \$852.12 million of undisbursed Funding Years 1999 and 2000 collections were used to stabilize USF contributions and offset collections for 3rd Quarter 2002 (3Q2002), 4th Quarter 2002 (4Q2002), and 1st Quarter 2003 (1Q2003).⁶⁷

On October 1, 2004, as required by the FCC, USAC changed the accounting methodology for the USF to generally accepted accounting principles for federal agencies. ⁶⁸ Commission staff subsequently determined that Funding Commitment Decision Letters (FCDLs) for the Schools and Libraries Support Mechanism are to be treated as "obligations" for federal budgetary accounting purposes and subject to the requirements of the Anti-deficiency Act (ADA). ⁶⁹ The ADA generally requires that sufficient unobligated resources be available before an obligation can be incurred. Congress exempted the USF from the requirements of the ADA through December 31, 2019. ⁷⁰

To reduce the USF cash reserve that has accumulated primarily because the structure of the program necessarily results in significant time lags between the commitments and actual disbursements while at the same time retaining the ability of the USF to satisfy all outstanding commitments based on historic disbursement patterns, the Commission applied a total of \$550 million of the undisbursed USF balance from prior years against Schools and Libraries Support Mechanism demand in 2004. The Commission applied \$200 million of the cash balance in both Second Quarter and Third Quarter 2004, and \$150 million in Fourth Quarter 2004.

The Commission subsequently authorized the recovery by adjusting subsequent funding years for these changes as follows: 2010: \$140M; 2011: \$250M; 2012: \$40M; and 2013: \$120M.⁷²

In the *Schools and Libraries Third Report and Order*, the Commission amended its rules to allow unused funds from prior Funding Years to be carried forward on an annual basis in the second quarter of each calendar year for use in the next full Funding Year. ⁷³ The Commission required USAC to file quarterly estimates of unused funds from prior Funding Years in submitting its projection of Schools and Libraries Support Mechanism demand for

\$2.41 billion annual cap.⁸⁴ The funds were carried forward from Funding Years 2002, 2007, 2009 and 2010 in the amount of \$40 million, \$30 million, \$70 million and \$60 million, respectively.

In the *Schools and Libraries Sixth Report and Order*, the Commission amended its rules to increase the cap on program funding by indexing the cap to inflation. The Commission calculates this annual increase by using the percentage increase in the gross domestic product chain type price index (GDP-CPI) from the previous year and rounds this to the nearest 0.1 percent. The Commission found that the GDP-CPI increased 0.9 percent between 2008 and 2009. Using this analysis, the Commission set the cap for Funding Year 2010 to \$2,270,250,000. On August 5, 2011, the Commission set the cap for Funding Year 2011 at \$2,290,682,250.86 On November 18, 2011, the FCC ordered USAC to include the inflation adjustments to the E-rate cap in the Schools and Libraries Support Mechanism demand projection.87 On May 18, 2012, the Commission set the cap for Funding Year 2012 to \$2,338,786,577.88 On March 11, 2013, the FCC set the cap for Funding Year 2013 at \$2,380,314,485.89 On March 28, 2014, the FCC set the cap for Funding Year 2014 at \$2,413,817,693.90

On December 15, 2014, the FCC Managing Director provided guidance to USAC concerning maintenance of cash reserves for meeting funding commitments for the Schools and Libraries Support Mechanism. ⁹¹ On December 19, 2014, the FCC released the *Second E-rate Modernization Order*, adjusting the \$2.41 billion annual cap (after giving effect to inflation adjustments) to \$3.9 billion, effective for Funding Year 2015. ⁹² On December 23, 2014, USAC submitted information to the FCC consistent with that guidance. ⁹³

On May 6, 2015, USAC submitted an estimate of demand for the E-rate program for Funding Year 2015 of \$3.92 billion, which includes estimated demand for Category One services (telecommunications, telecommunications services and Internet access) of \$2.255 billion and of \$1.665 billion for Category Two services (internal connections, basic maintenance of internal connections and managed internal broadband services).

On May 8, 2015, the FCC authorized USAC to carry-forward \$1,575 million in unused funds from prior years to fund Funding Year 2015 disbursements up to the \$3.92 billion demand. The funds were carried-forward from Funding Years 1998, 1999, 2000, 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012 and 2013 in the amount of \$4.99 million; \$8.44 million; \$7.70 million; \$27.70 million; \$15.20 million; \$43.83 million; \$20.95 million; \$18.62 million; \$31.80 million; \$19.49 million; \$18.46 million; \$70.37 million; \$378.57 million; \$595.81 million; \$295.12 million; and \$18 million, respectively.

On June 6, 2016, USAC submitted an estimate of demand for the E-rate program for Funding Year 2016 (July 1, 2016 to September 30, 2017) of \$3.609 billion, which includes

estimated demand for Category One services (i.e., telecommunications, telecommunications services and Internet access) of \$2.330 billion and of \$1.279 billion for Category Two services (i.e., internal connections, basic maintenance of internal connections and managed internal broadband services).

On June 8, 2016, the FCC authorized USAC to carry forward \$1,900 million in unused funds from prior years to fund Funding Year 2016 disbursements up to the \$3.609 billion demand. The funds were carried-forward from Funding Years 2004, 2006, 2008, 2010, 2011, 2012, 2013, 2014 and 2015 in the amount of \$1.69 million; \$2.00 million; \$7.00 million; \$4.31 million; \$17.00 million; \$540.00 million; \$850.00 million; \$290 million; and \$188.00 million, respectively.

The FCC directed USAC to fully fund eligible Category One services under the new cap. The FCC also directed USAC to fully fund eligible Category Two services, first using the unused \$1.90 billion in E-rate funds from prior years, and then using any additional funds needed under the new cap to fully meet demand.

On May 24, 2017, the FCC authorized USAC to carry forward \$1,200.24 million to Funding Year 2017 from prior Funding Years as follows: 2014: \$215.04 million; 2015: \$561.88 million; and 2016: \$423.32 million.

The FCC directed USAC to fully fund eligible Category One and Category Two requests, using \$1.2 billion in E-rate funds unused from previous years, and any additional funds needed under the current cap to fully meet demand for such services.

On August 17, 2018, the FCC authorized USAC to carry forward \$1,200.00 million to Funding Year 2018 from prior Funding Years as follows, 1998: \$0.39 million; 2001: \$2.31 million; 2008: \$3.12 million; 2012: \$10.87 million; 2013: \$11.75 million; 2015: \$97.51 million; 2016: \$597.27 million; and 2017: \$476.78 million.

The following sections provide information regarding the use of funds for each funding year, including adjustments made by the Commission and projections of unused funds as required by Commission rules.
